F01 Private car purchase

Select Pacific, review the product and complete the vehicle and personal details. Follow the numbered red arrows.

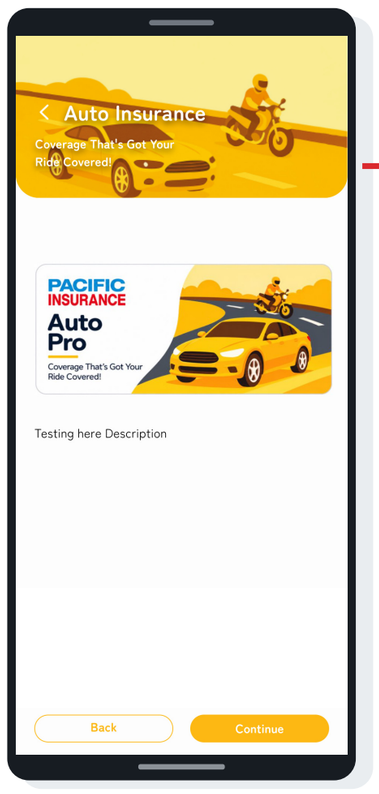

01 Select Pacific

Tap Free Quote

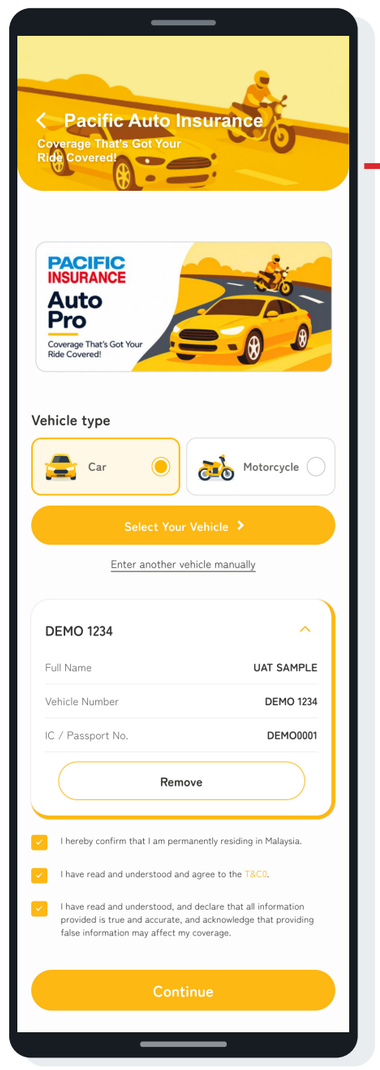

02 Product introduction

Tap Continue

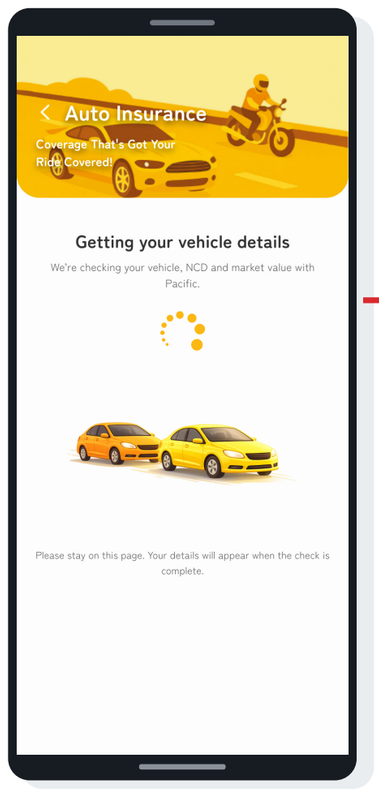

03 Car & declarations

Choose vehicle; tap Continue

04 Vehicle lookup

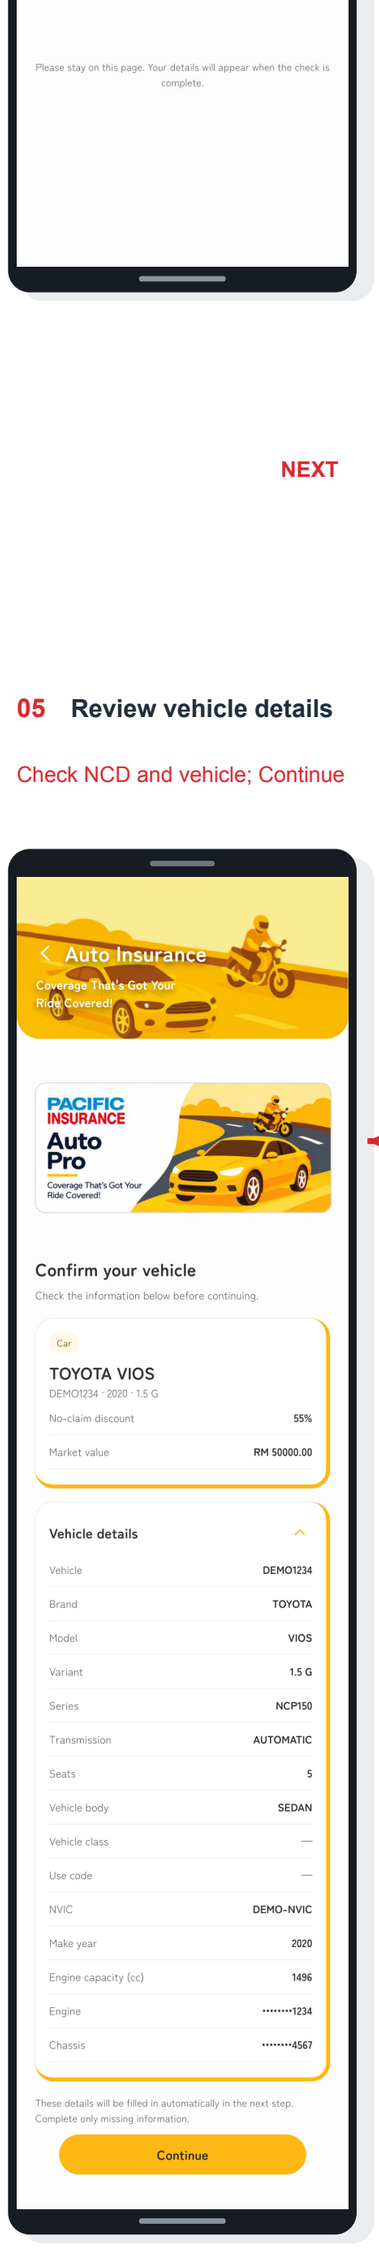

Wait for the returned details

NEXT

05 Review vehicle details

Check NCD and vehicle; Continue

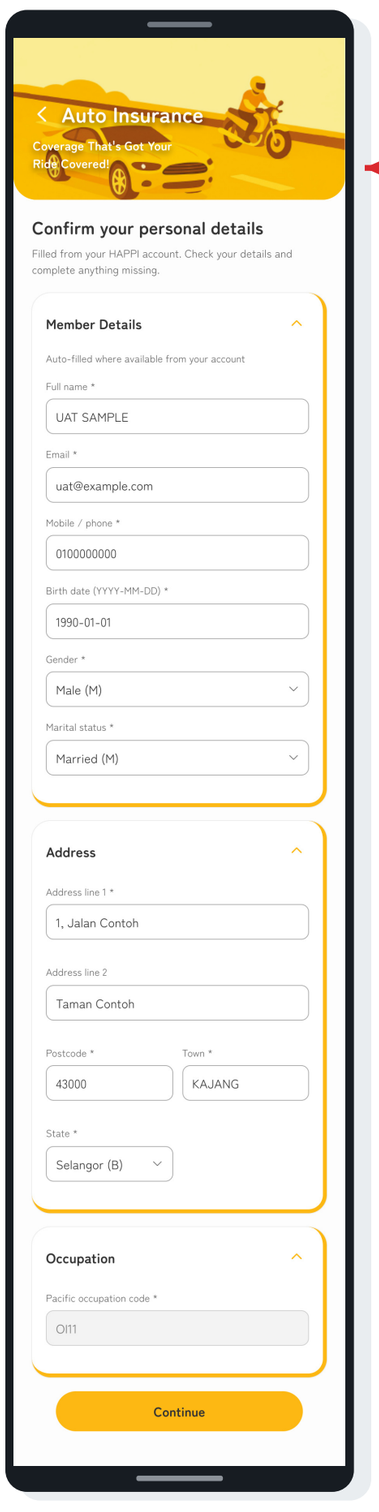

06 Choose sum insured

Enter a valid amount; Continue

07 Personal details

Check every section; Continue

CONTINUE: PAGE 2 / STEP 08

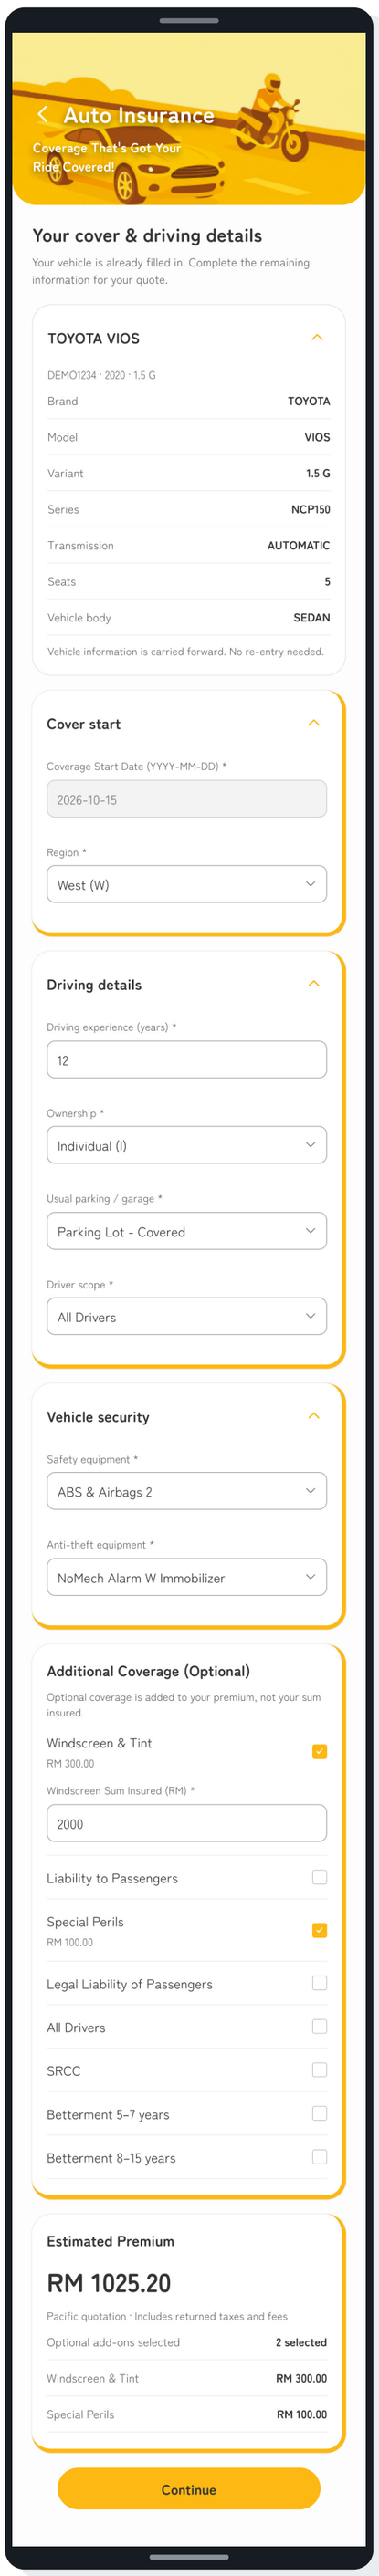

Current local configuration includes placeholder product text and T&C0. These visible items require content approval before insurer sign-off.

F01 Private car purchase

Continued from page 1, step 07. Cover details, quotation and payment through to the complete receipt.

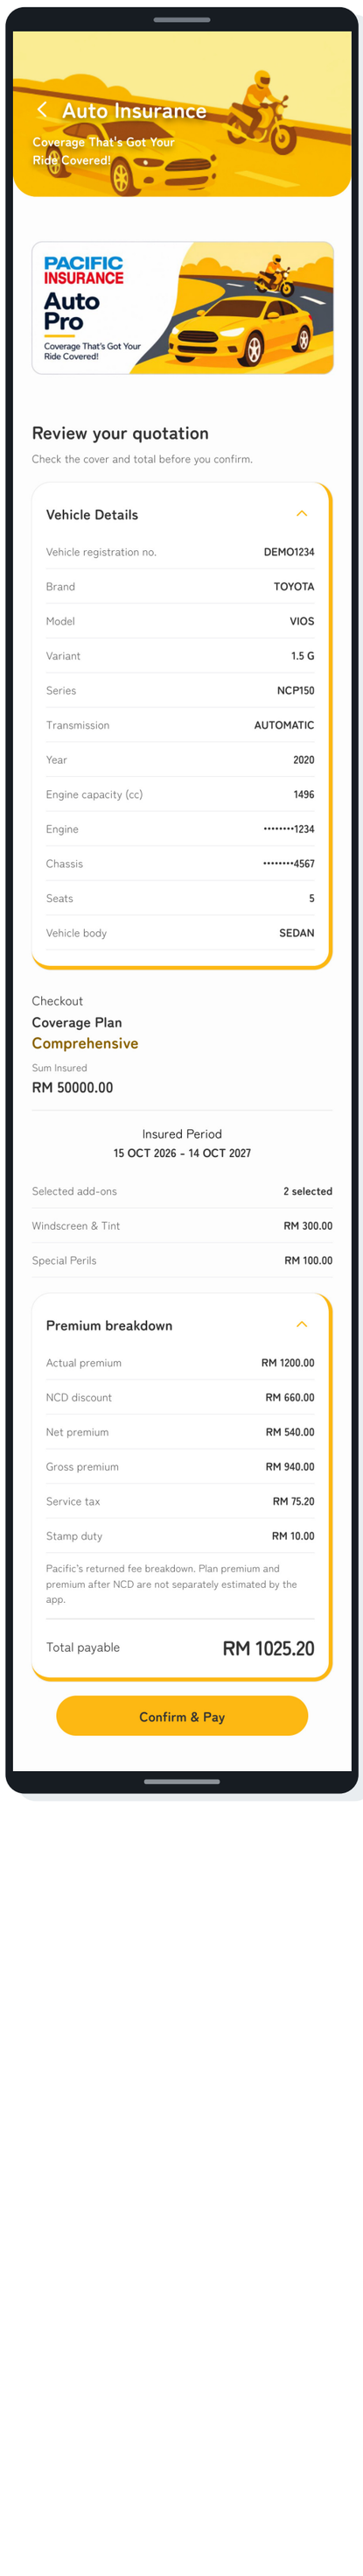

08 Cover & add-ons

Complete all fields; Continue

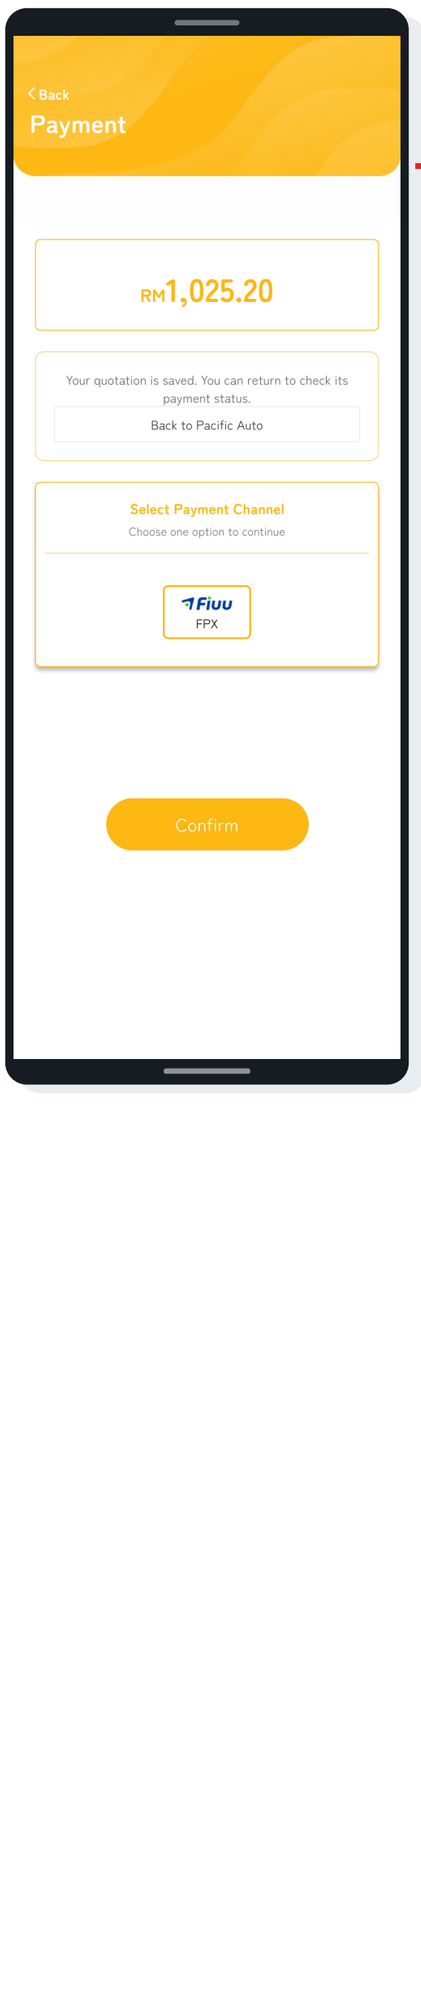

09 Review quotation

Check full breakdown; Confirm & Pay

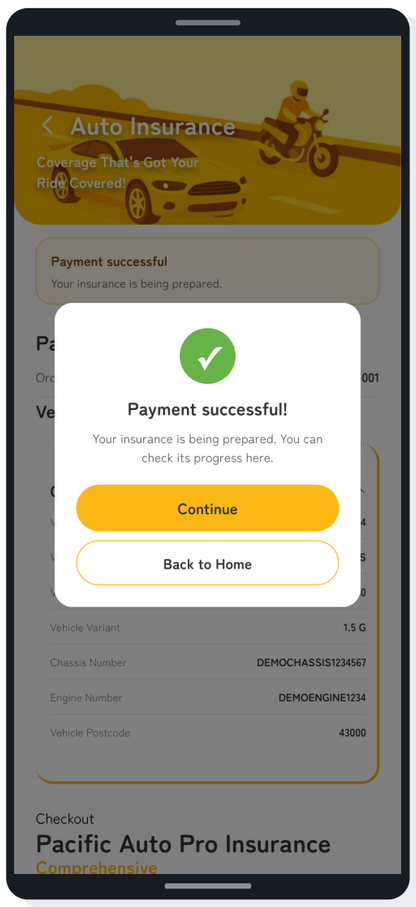

10 Select FIUU FPX

Confirm; complete external bank flow

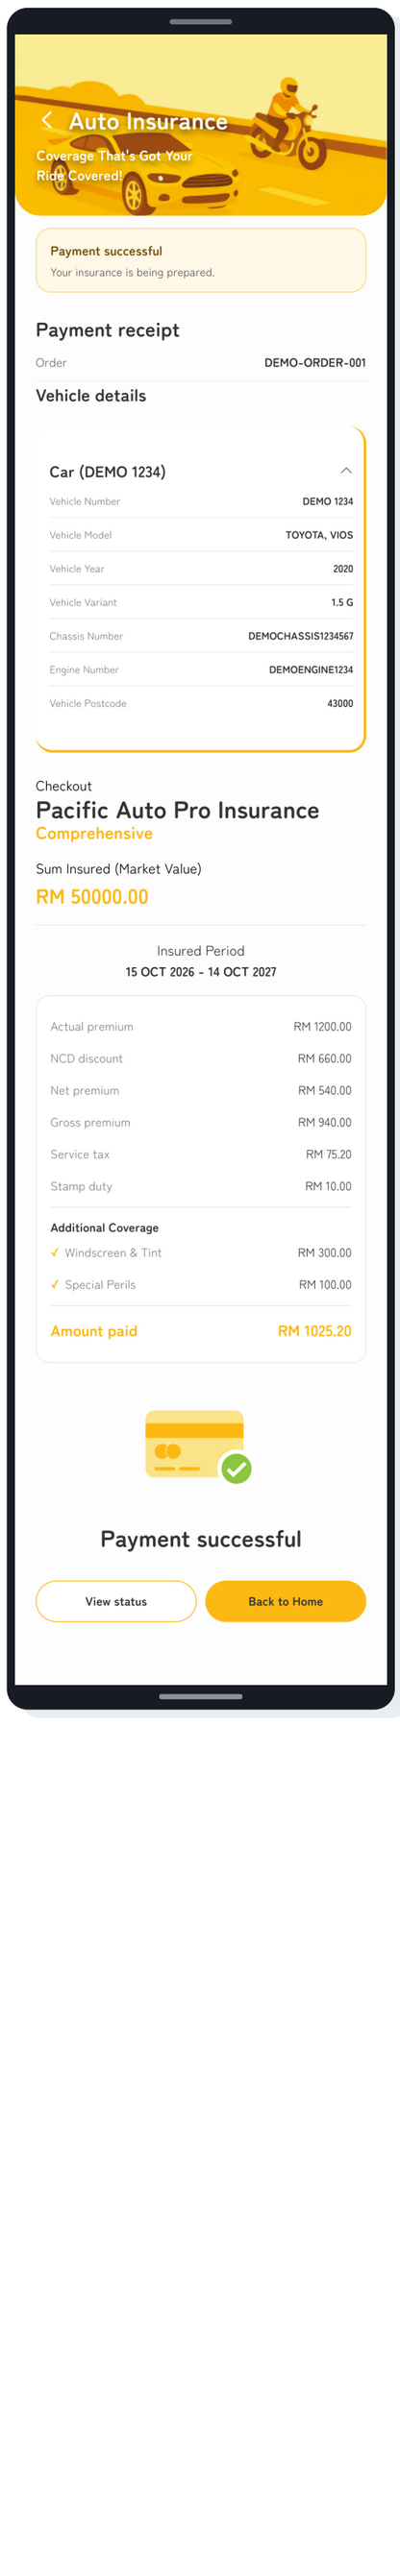

11 Payment confirmation

Tap Continue to view receipt

12 Full payment receipt

Tap View status: flow F05, page 7

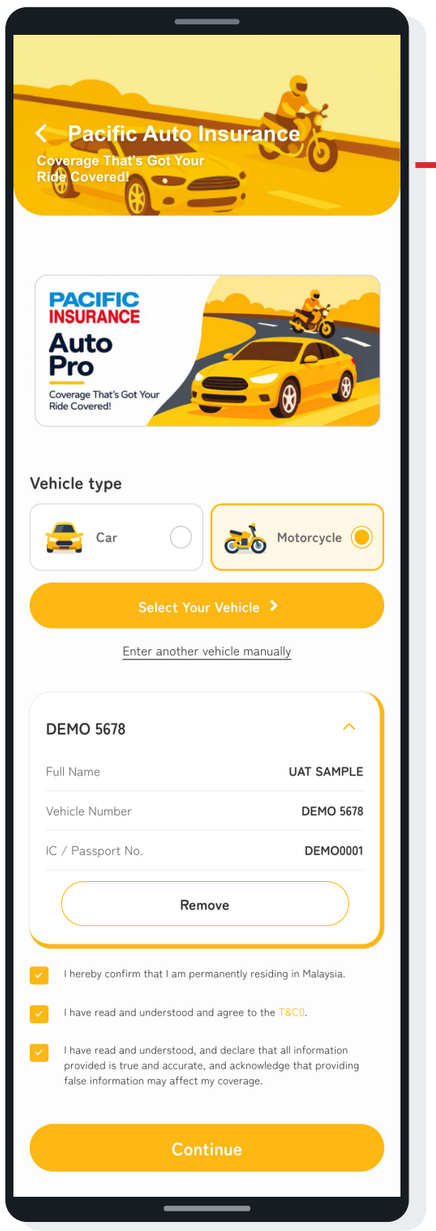

Step 10 shows HAPPI payment selection. External FIUU/bank pages are not captured. The paid scenario illustrates receipt UI; policy completion is reviewed on page 7.

F02 Motorcycle purchase

Use the same Pacific product entry shown on page 1. Select Motorcycle and review the complete returned vehicle information.

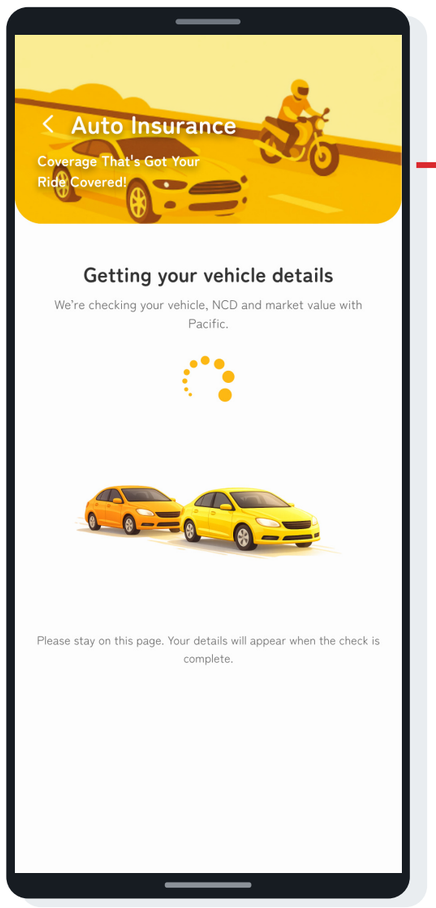

01 Motorcycle & declarations

Choose vehicle; tap Continue

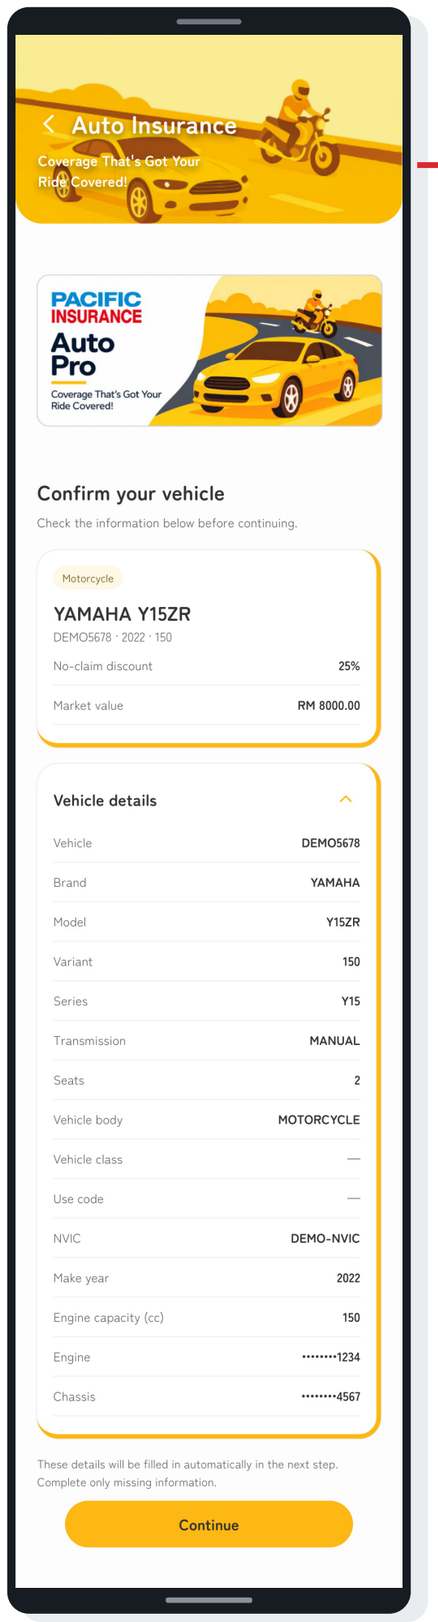

02 Vehicle lookup

Wait for the returned details

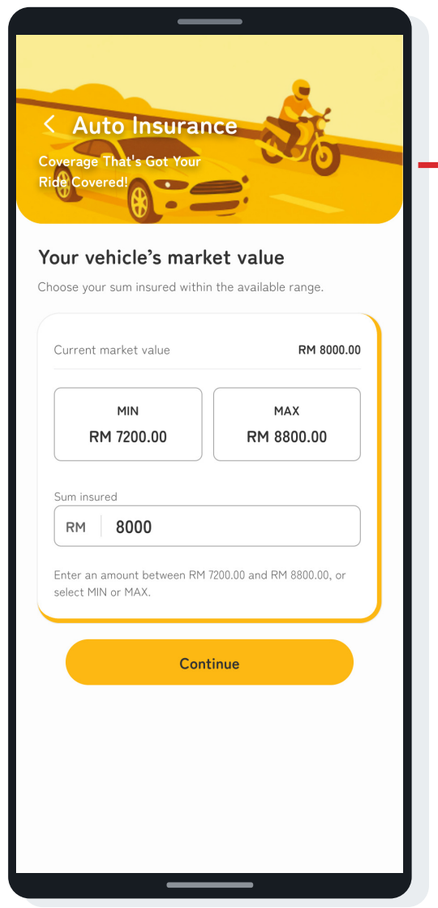

03 Review motorcycle

Check vehicle and NCD; Continue

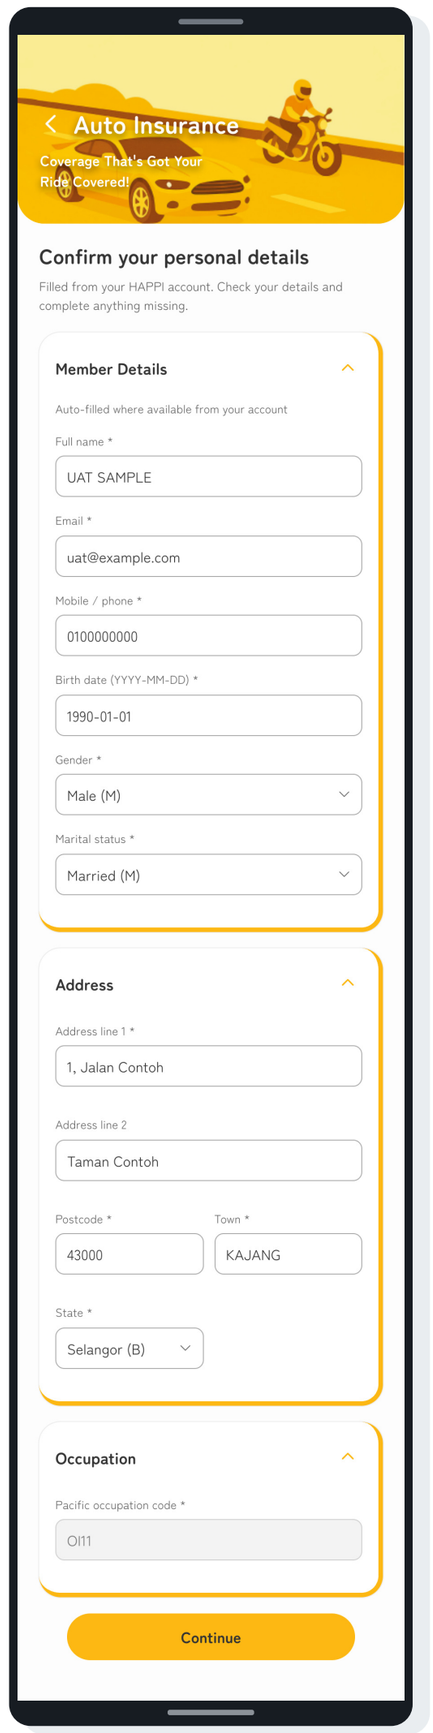

04 Choose sum insured

Enter a valid amount; Continue

05 Personal details

Check every section; Continue

CONTINUE: PAGE 4 / STEP 06

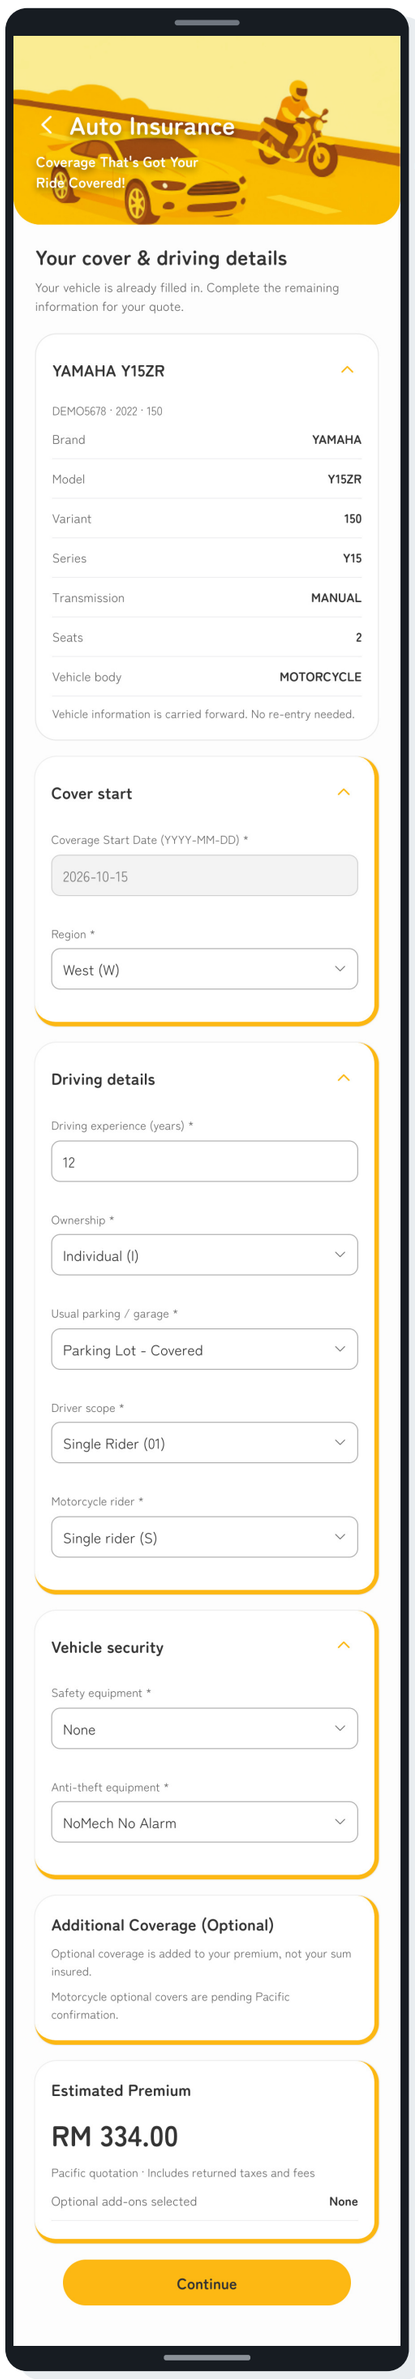

Motorcycle screenshots use separate example vehicle, NCD, sum insured and premium values. They do not represent an actual Pacific quotation.

F02 Motorcycle purchase

Continued from page 3, step 05. Review rider details and the full motorcycle quotation before payment.

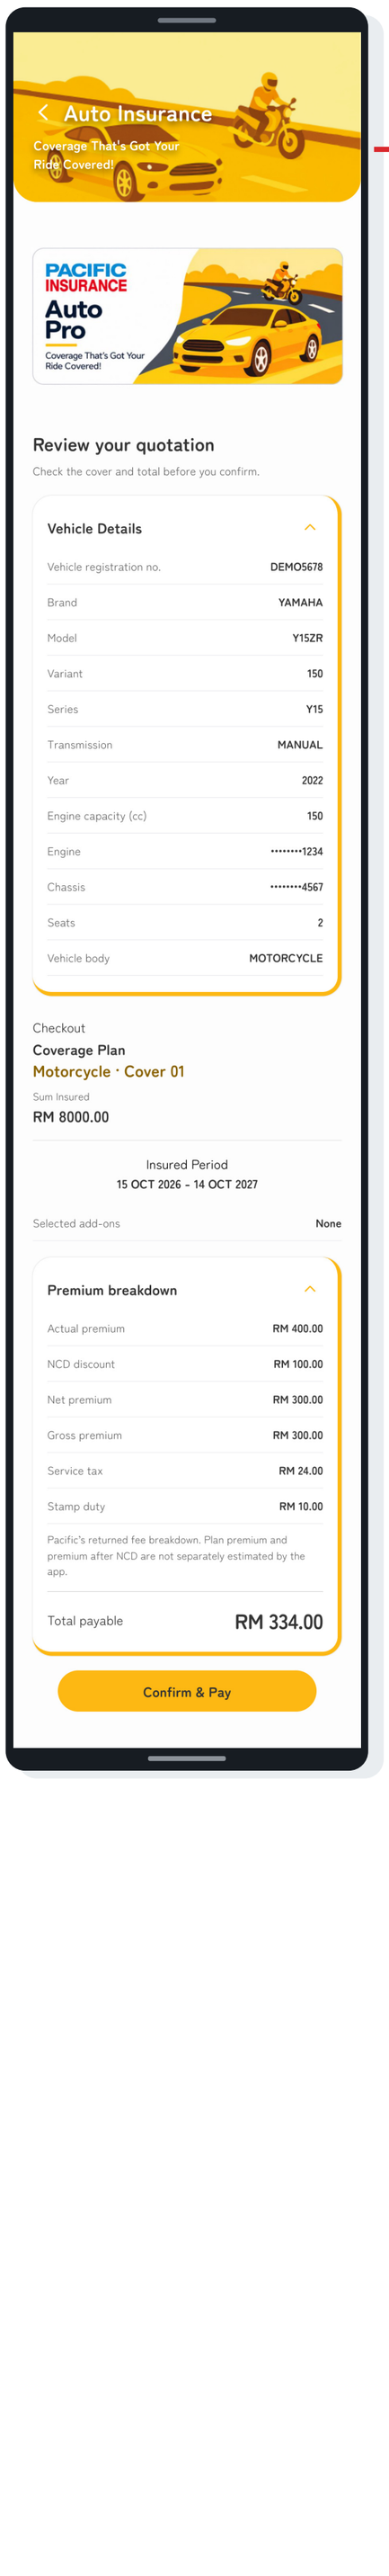

06 Cover & rider details

Check rider scope; Continue

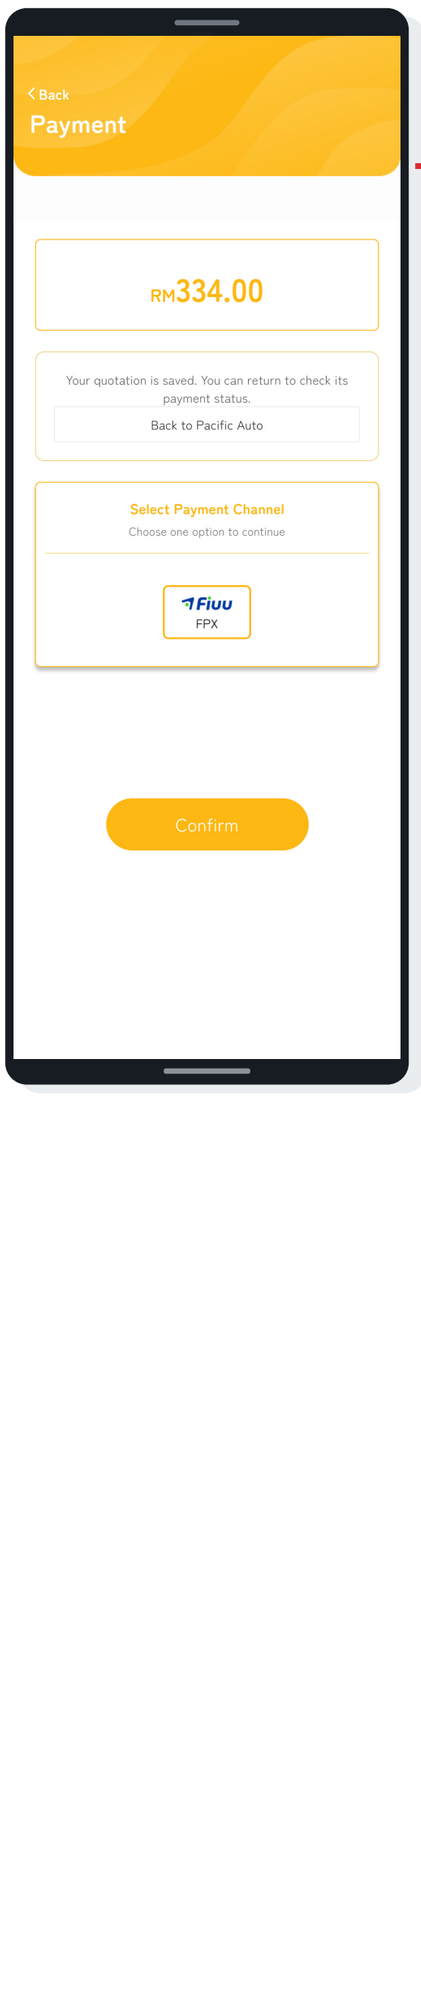

07 Review quotation

Check full breakdown; Confirm & Pay

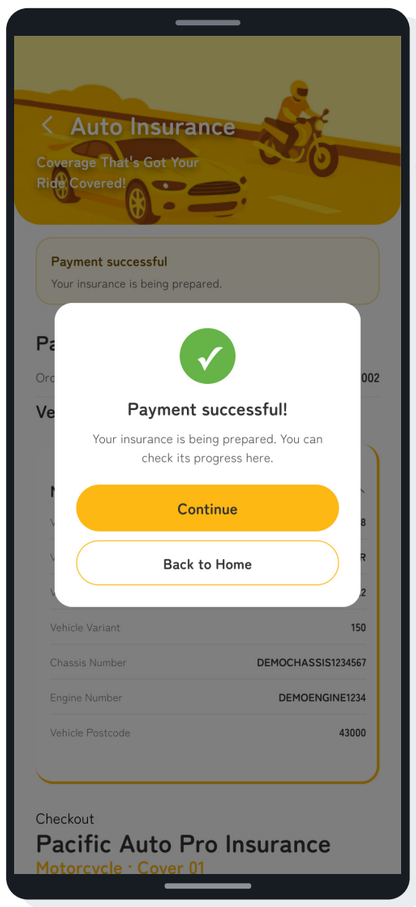

08 Select FIUU FPX

Confirm; complete external bank flow

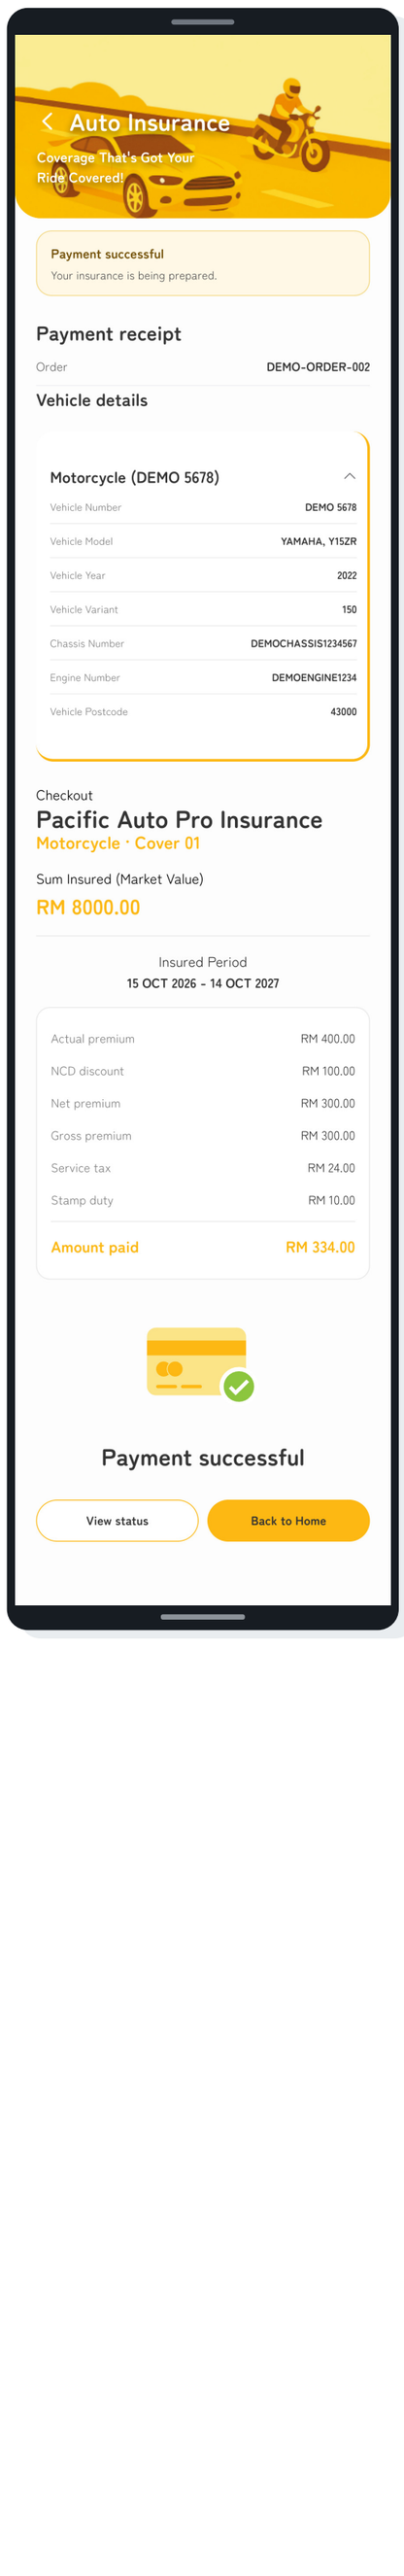

09 Payment confirmation

Tap Continue to view receipt

10 Full payment receipt

Tap View status: flow F05, page 7

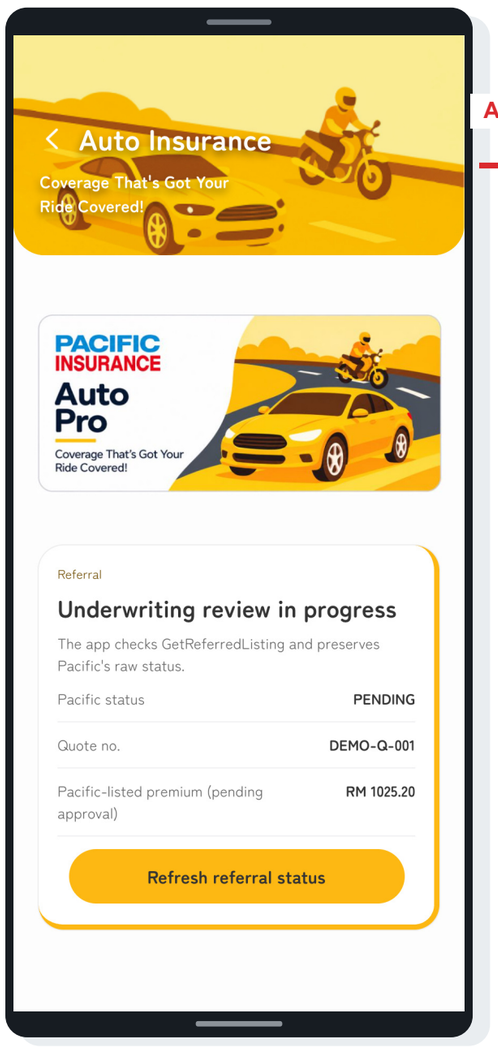

The current motorcycle display says optional covers are pending Pacific confirmation. This has been preserved for the insurer UI review.

F03 Underwriting referral

A referred quotation branches into approval or rejection. Payment follows only after approved quotation data has loaded.

01 Underwriting review

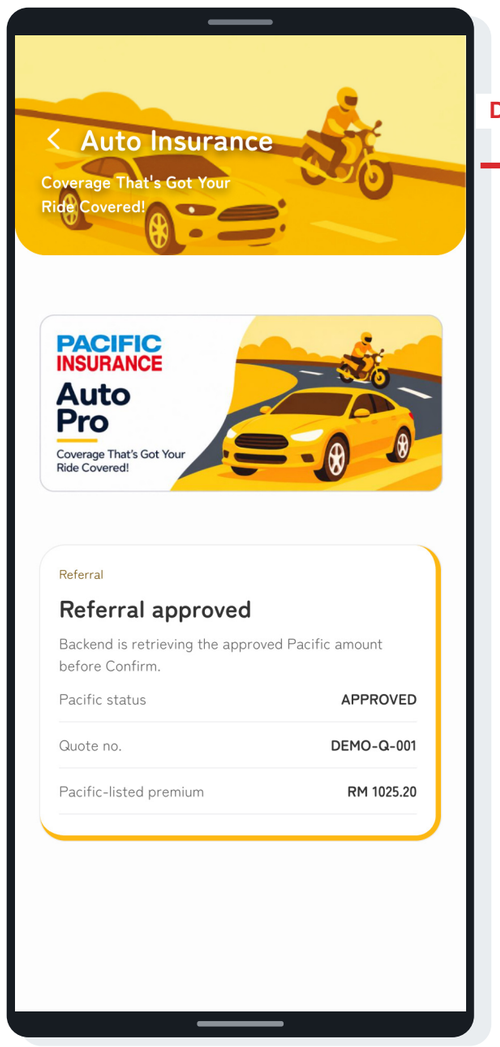

Refresh referral status

Approved

02 Referral approved

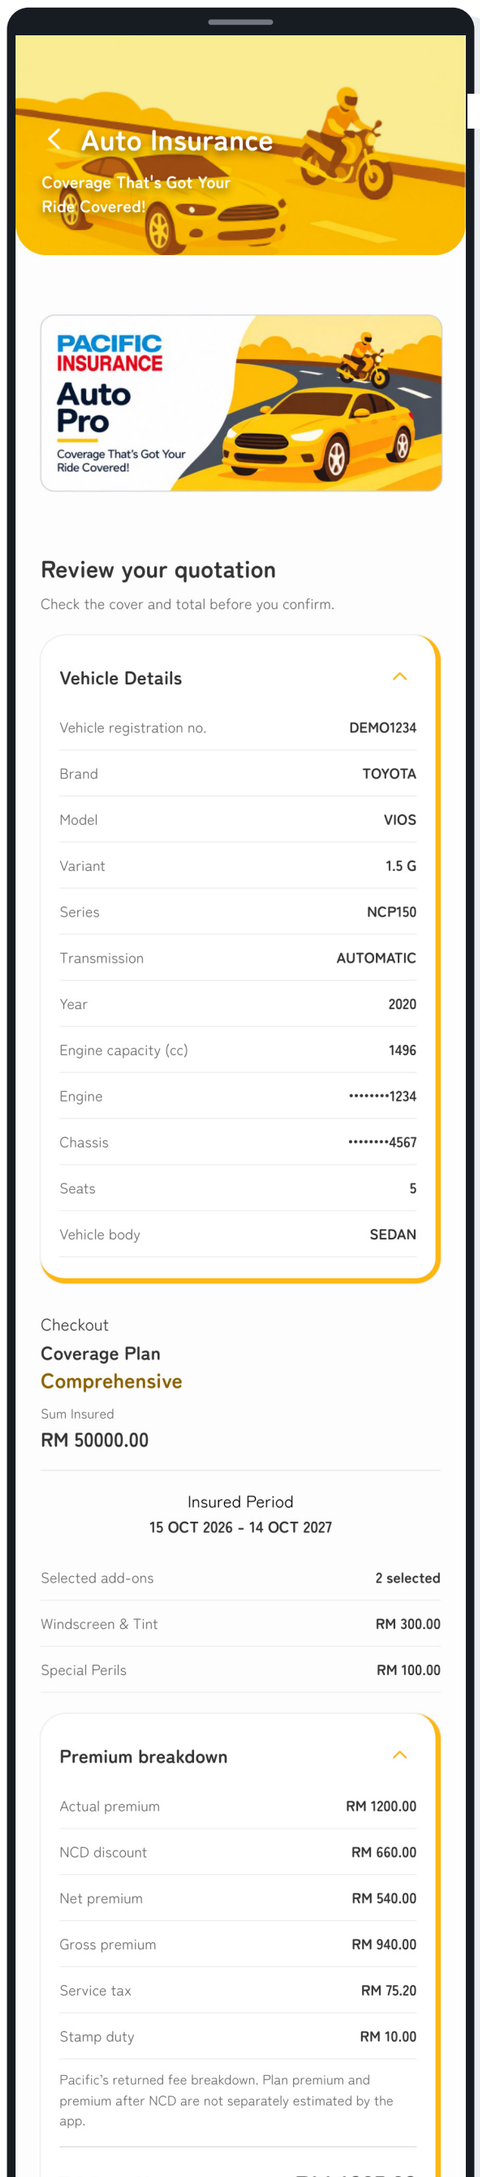

Wait for approved premium data

Data loaded

03 Approved quotation

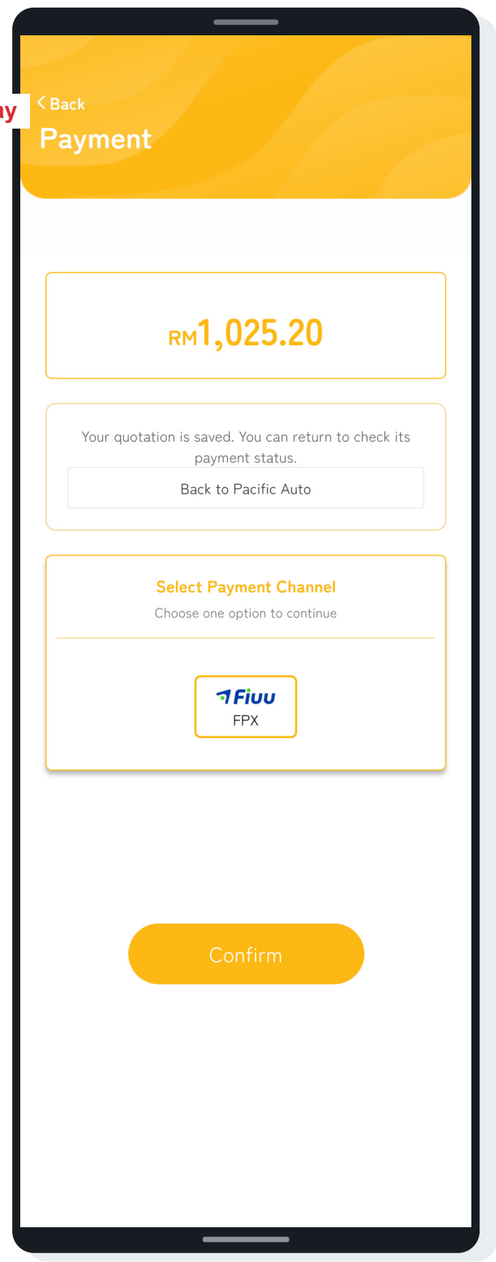

Review the returned amount

Confirm & Pay

04 Continue to payment

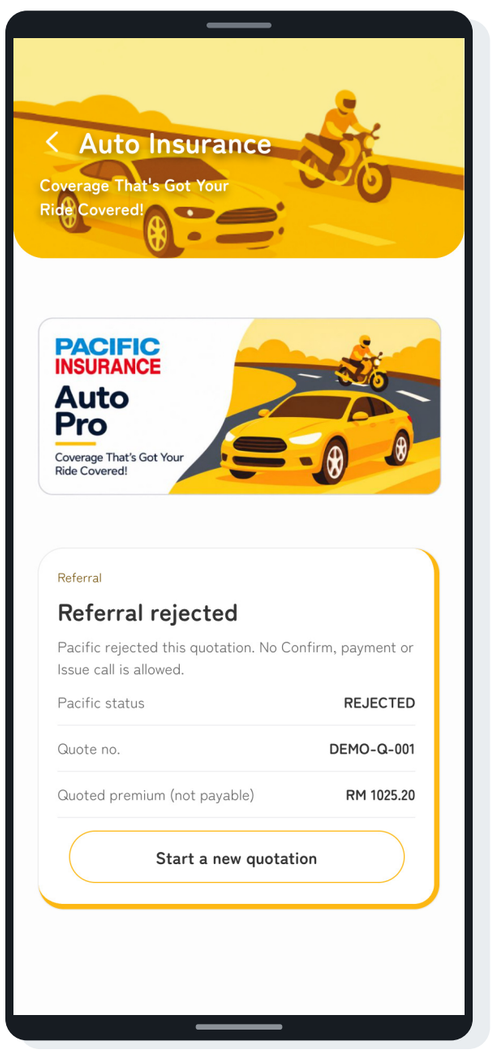

Confirm & Pay opens FPX selection

Rejected

2B Referral rejected

Start a new quotation

Rejected branch

No payment is offered. Start a new quotation returns the customer to vehicle selection.

PAGE 1 / STEP 03

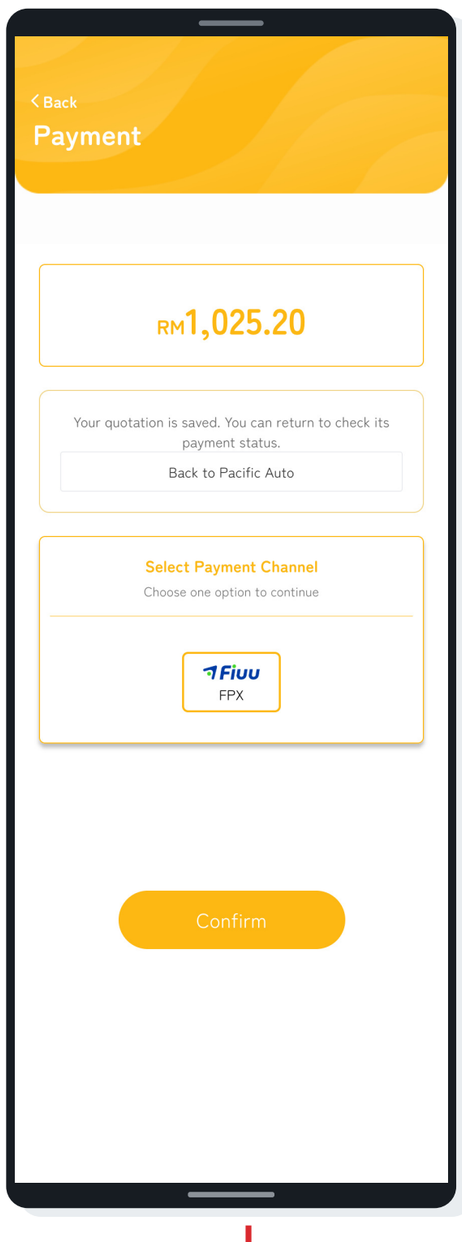

Pending and rejected amounts are not payable. Approval must be followed by the approved quotation data before payment is offered.

F04 Payment return & recovery

The payment return can be pending, failed or cancelled. A confirmed payment opens the receipt.

01 FIUU FPX payment

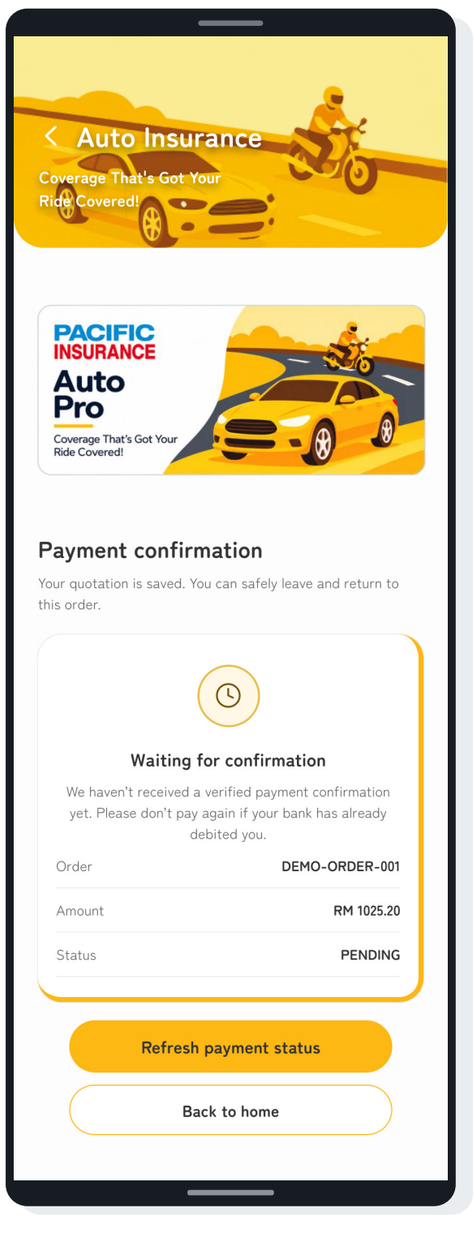

Return from the external bank flow

Pending

02 Waiting for confirmation

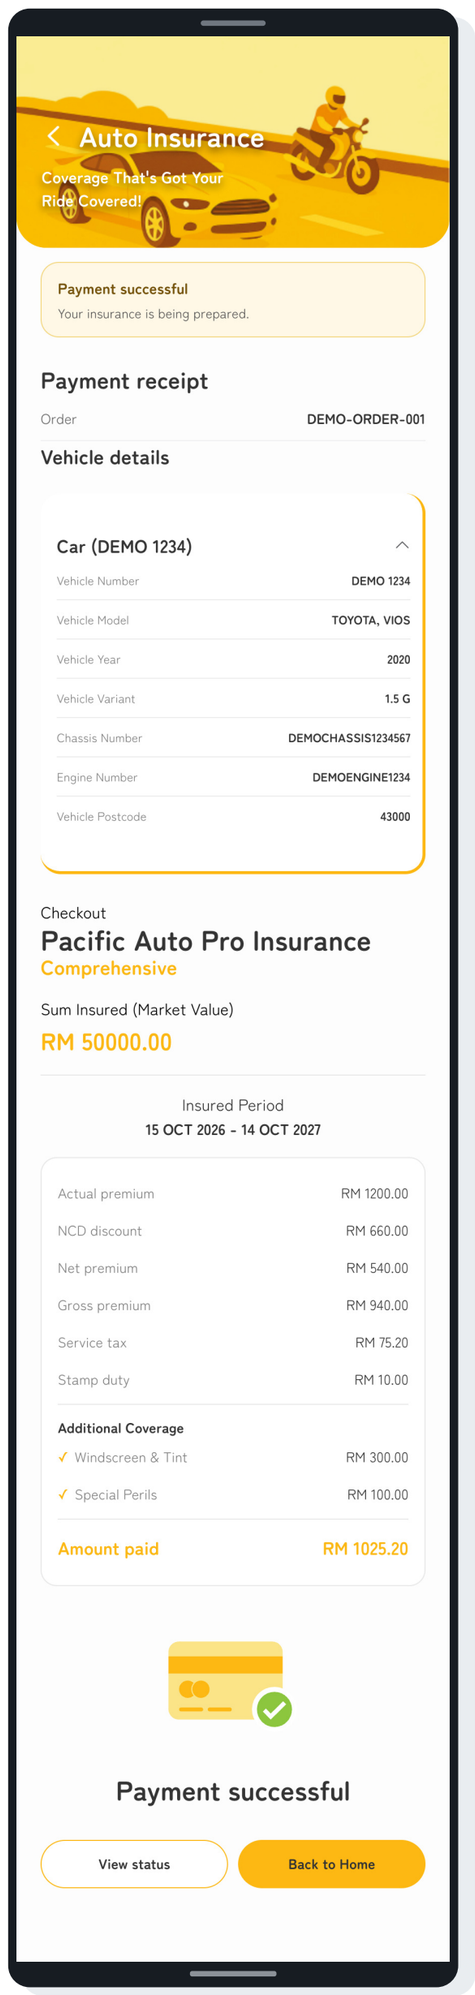

Tap Refresh payment status

Confirmed

03 Confirmed payment

Open full receipt; View status

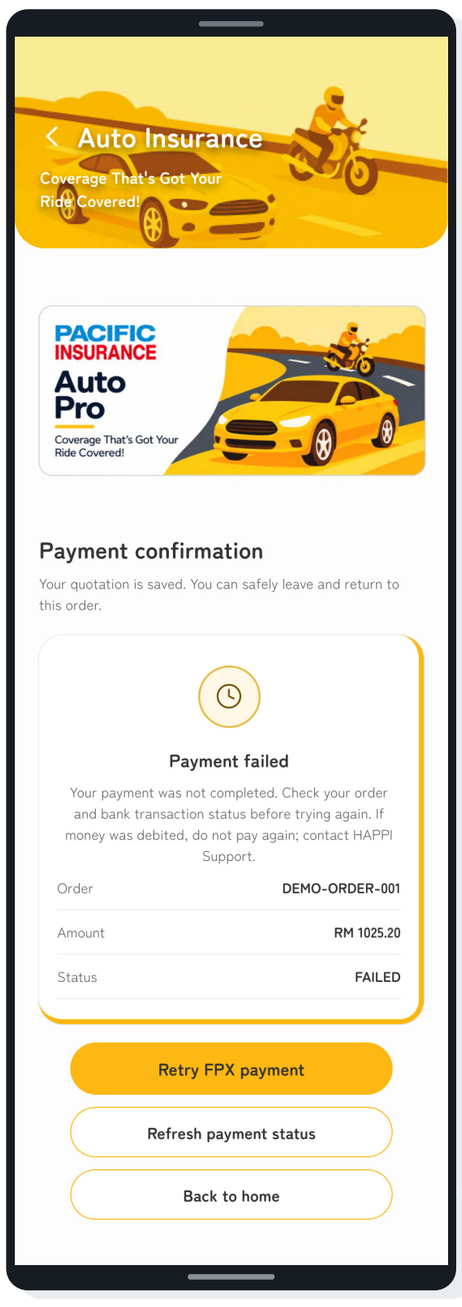

Cancelled

Failed

2B Payment failed

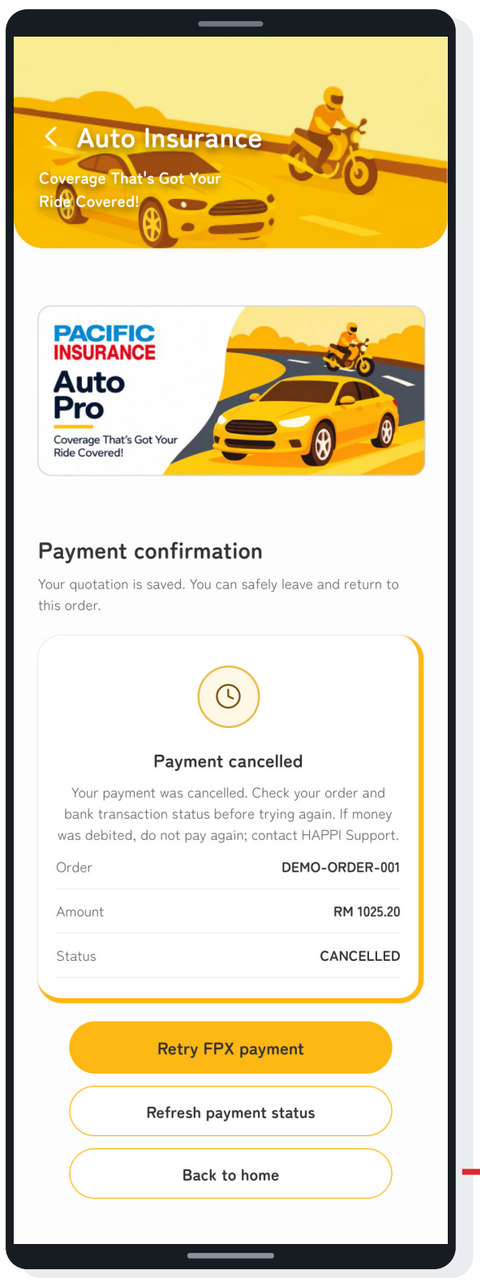

Check debit status; Retry FPX payment

Retry -> step 01

2C Payment cancelled

Check debit status; Retry FPX payment

Retry -> step 01

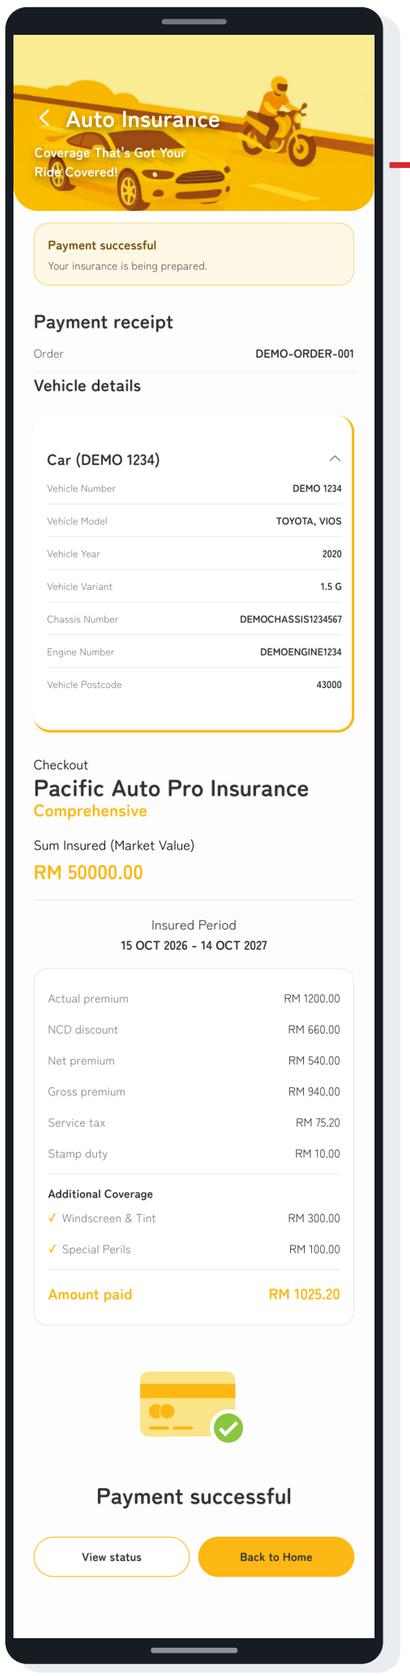

If the bank account has already been debited, the displayed guidance is to avoid a second payment and contact HAPPI Support. Pending alone is not payment success.

F05 Paid order to policy completion

The receipt is shown first. View status opens the insurance progress; intermediate stages remain distinct from completion.

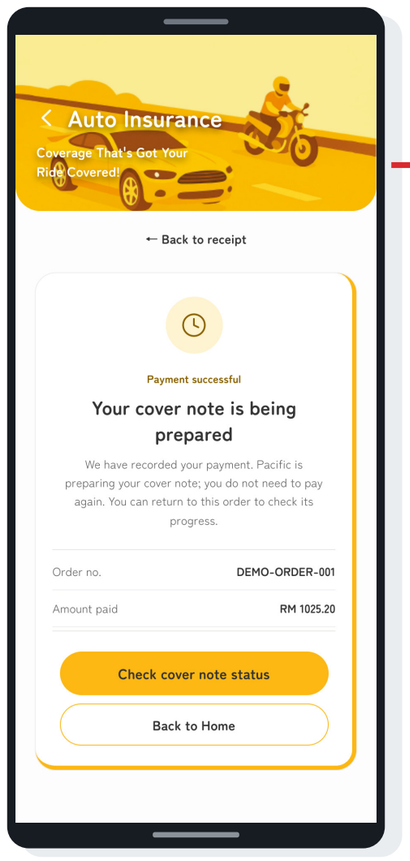

01 Payment receipt

Tap View status

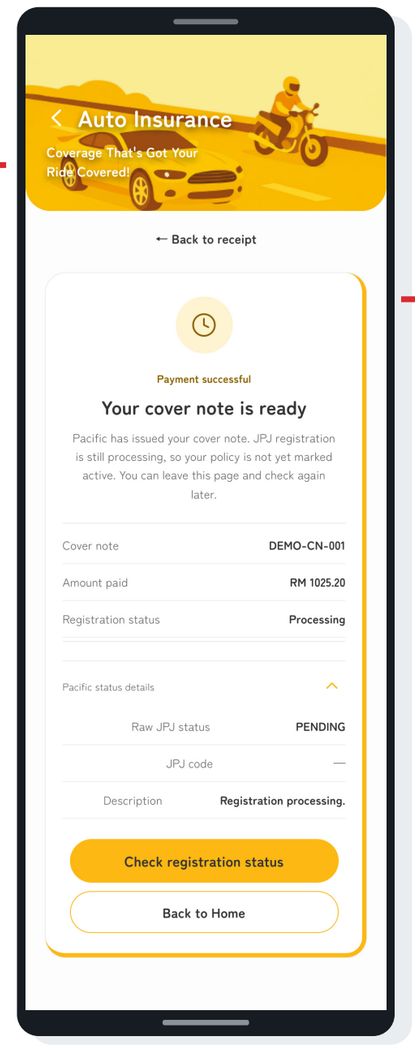

02 Cover note preparation

Check cover note status

03 JPJ processing

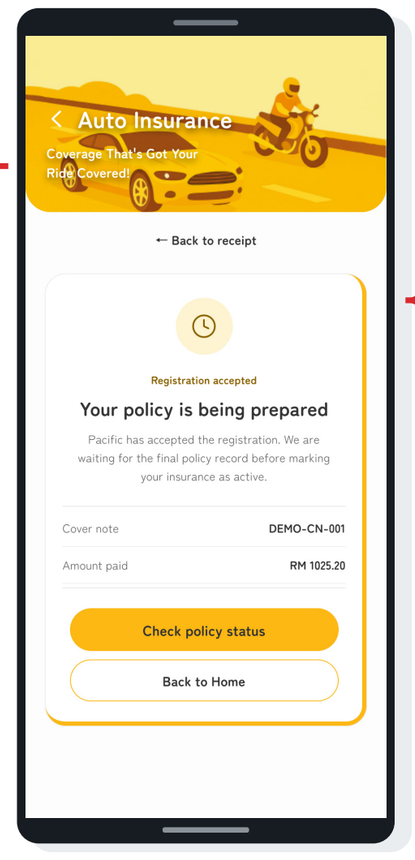

Check registration status

NEXT

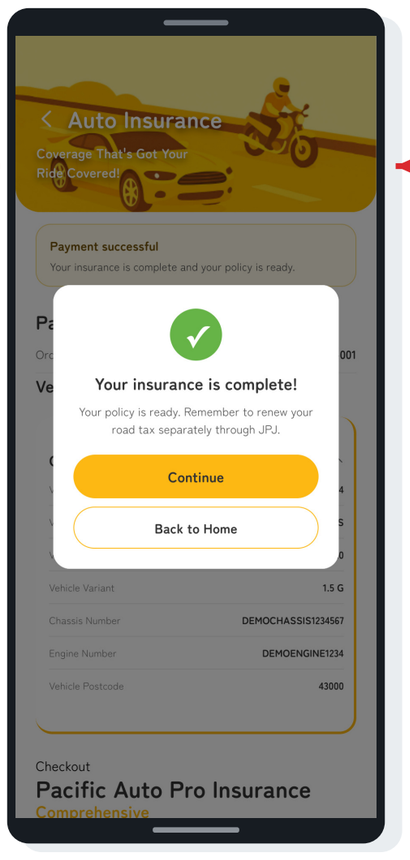

04 Policy preparation

Check policy status

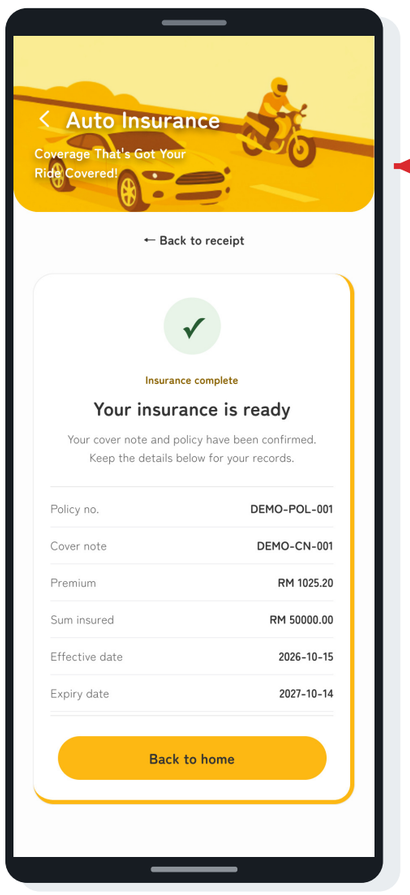

05 Completion confirmation

Continue; then tap View status

06 Complete policy details

Review policy; Back to home

Payment success does not itself mean the policy is active. Completion is displayed only after the cover note, registration and final policy are confirmed.

F06 JPJ correction & resubmission

When registration is rejected, review the full status details and correct the relevant identity or vehicle fields.

01 Registration needs attention

Review all rejection details

02 Enter corrections

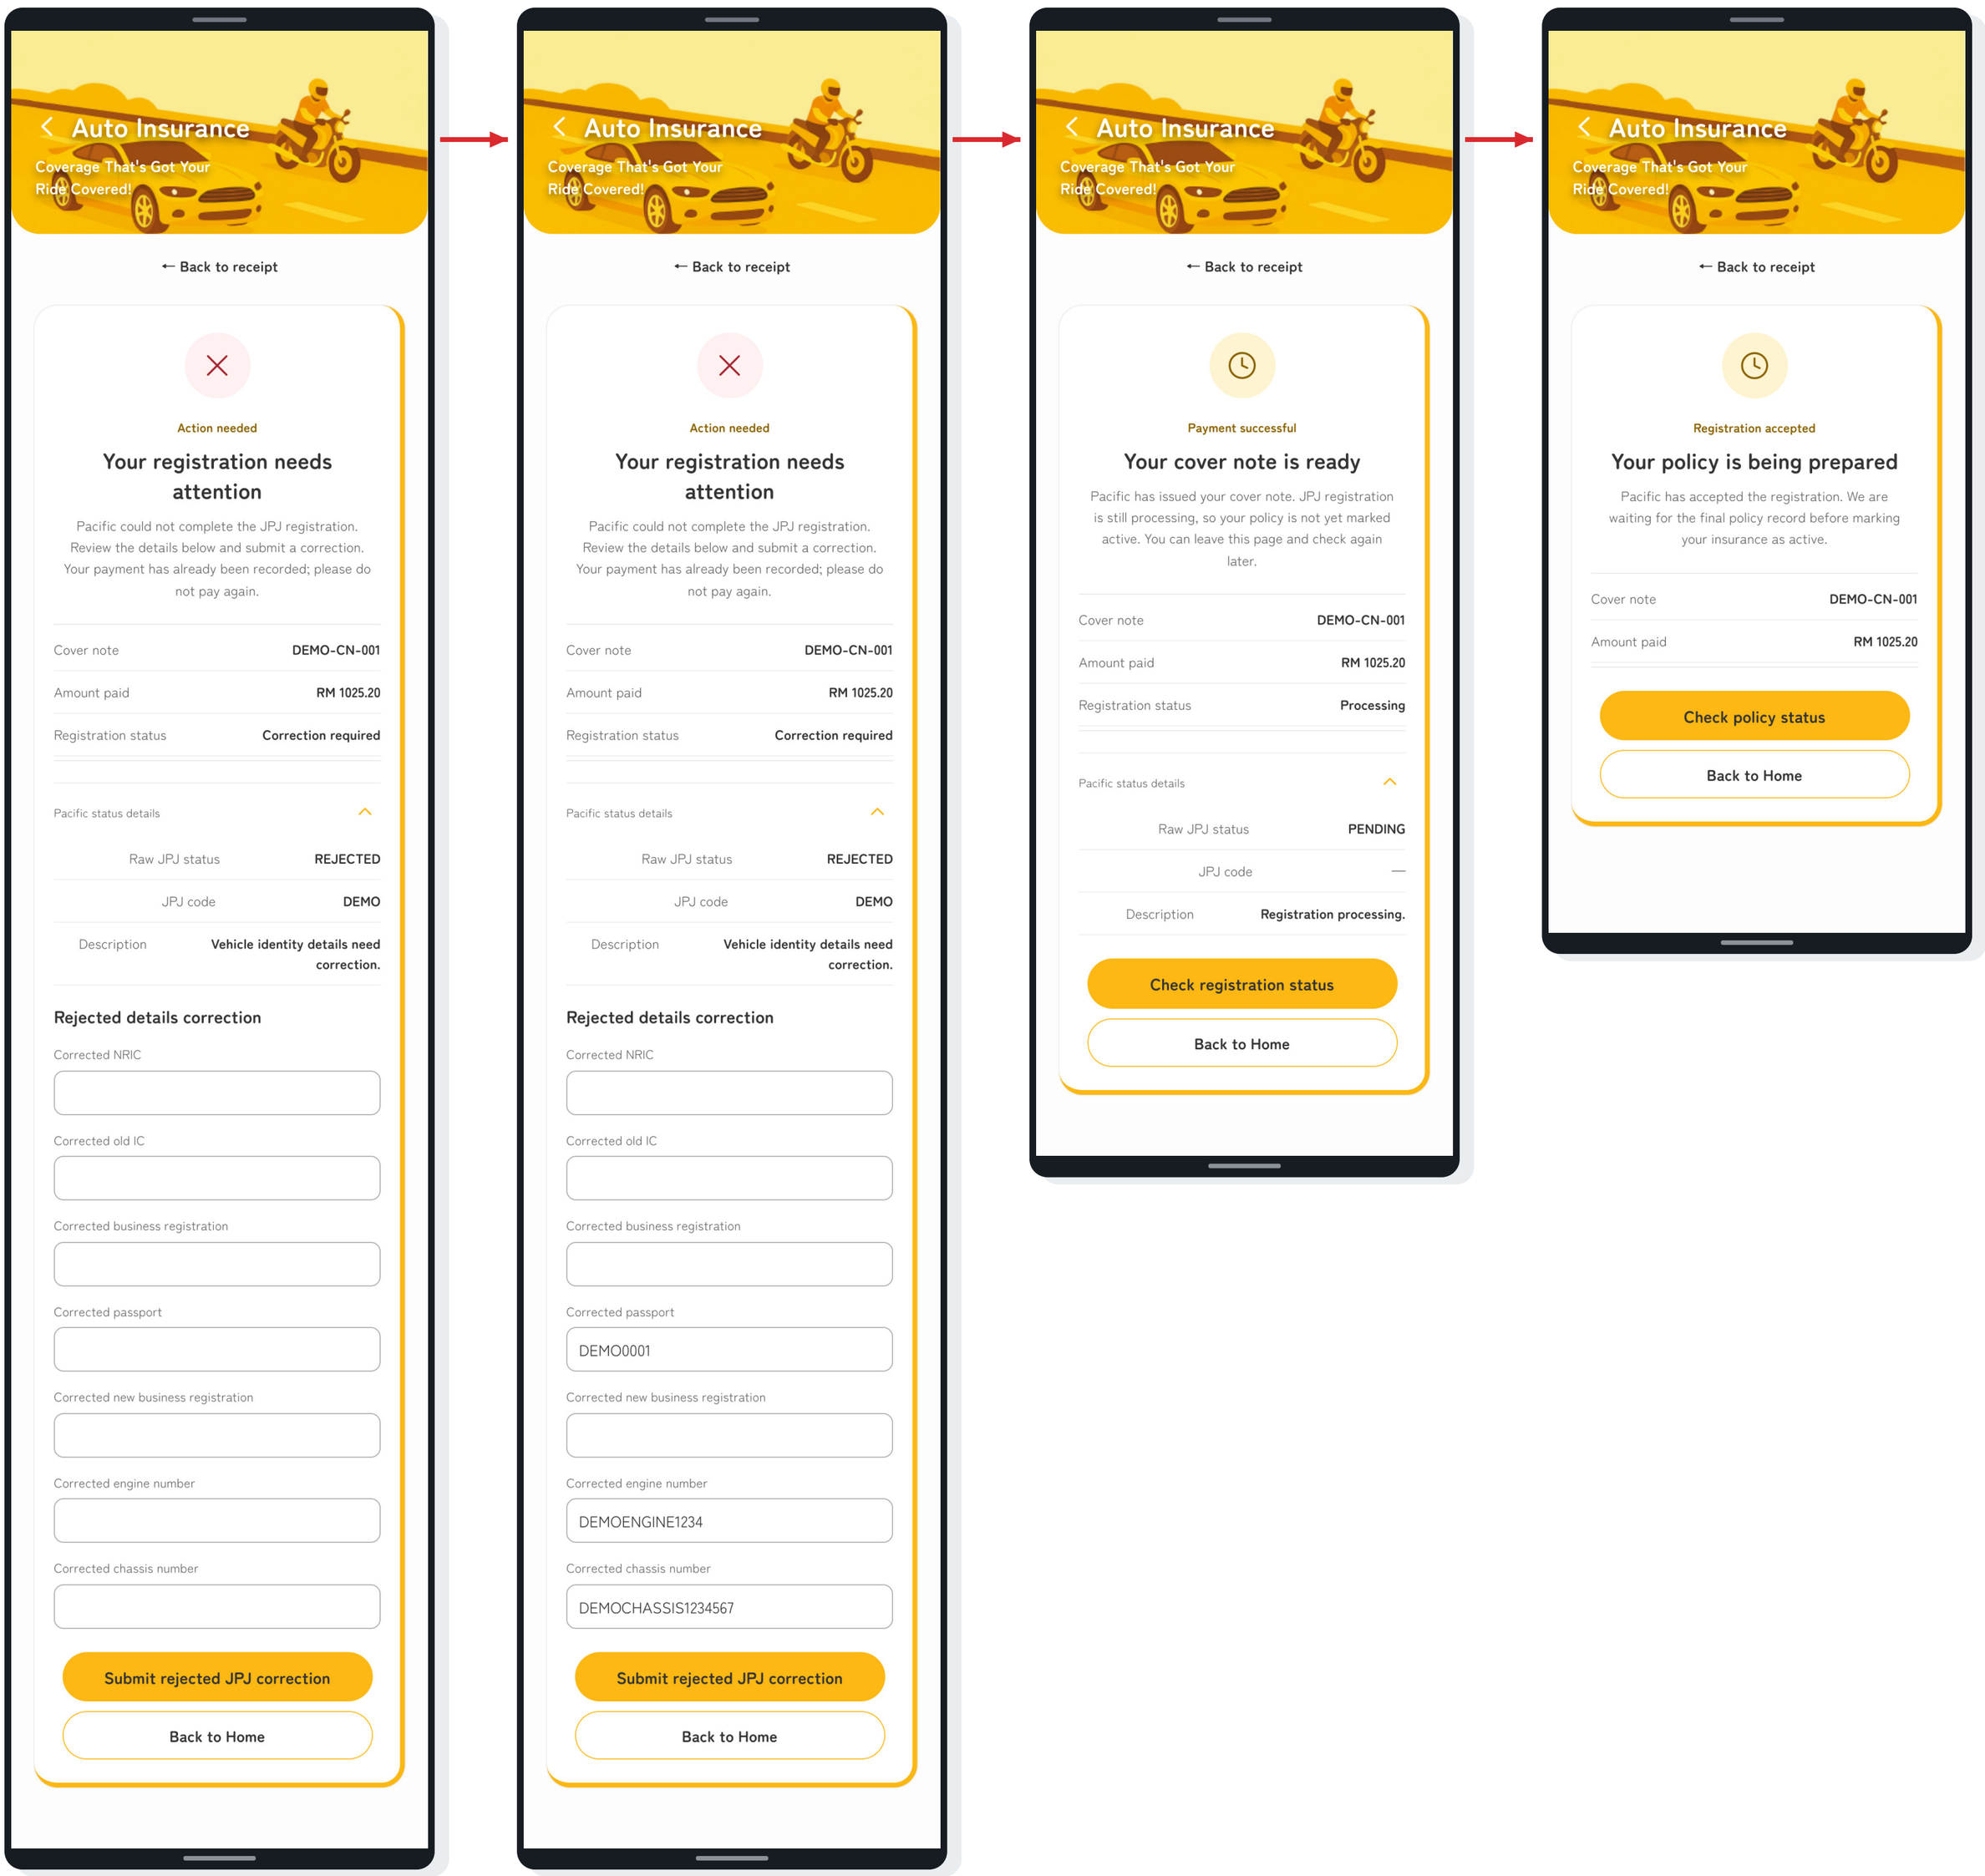

Submit rejected JPJ correction

03 Registration recheck

Check registration status

04 Registration accepted

Check policy status; continue to F05

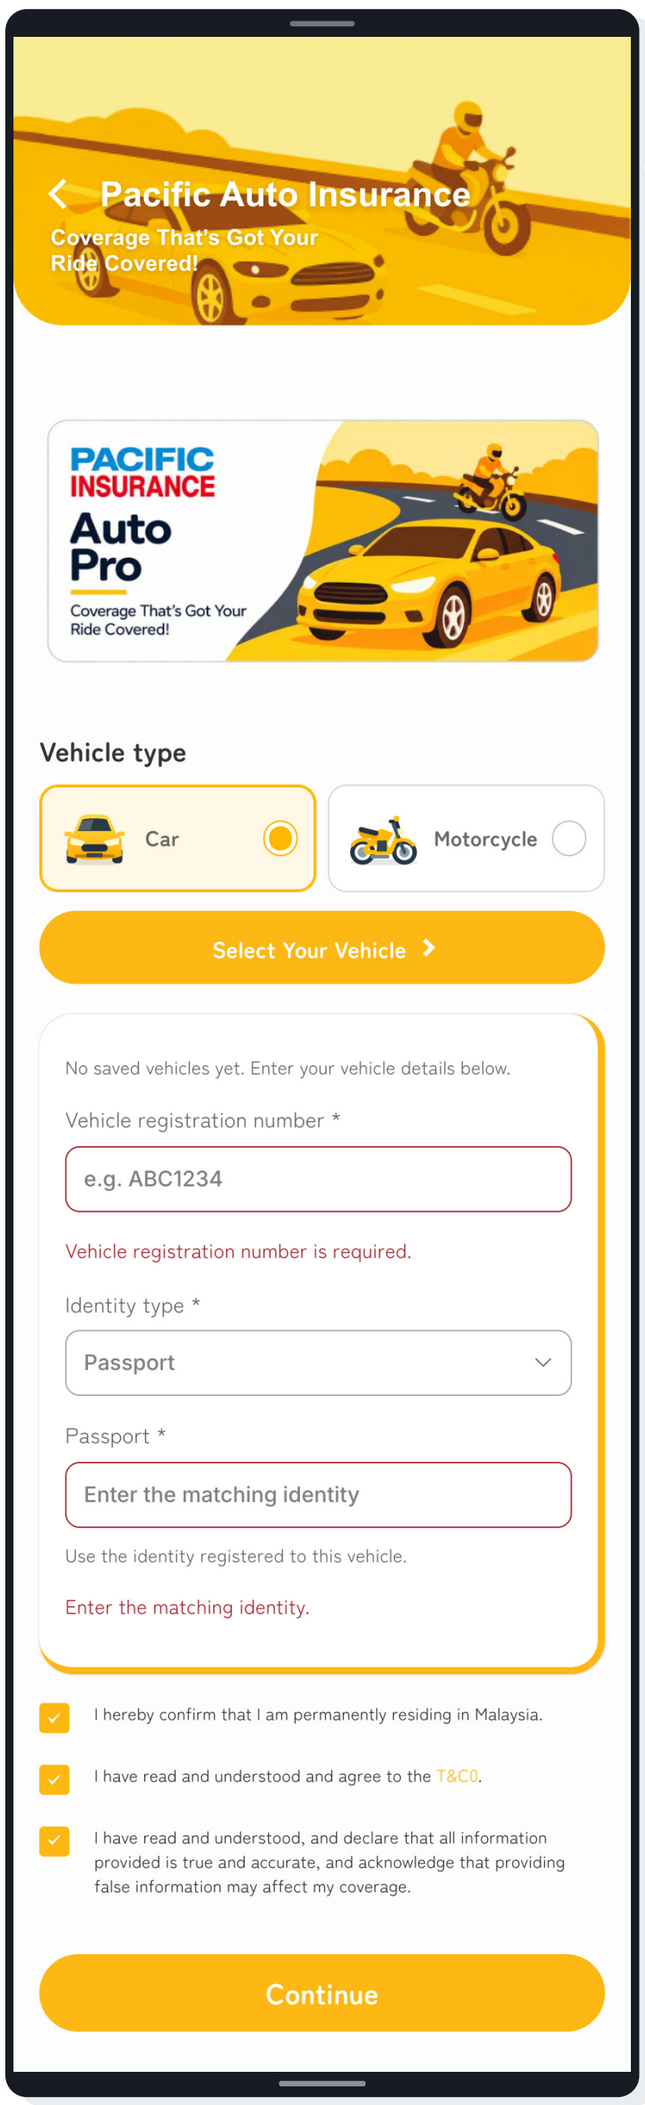

Only the relevant correction fields are completed in the example. If JPJ rejects the correction again, return to step 01. After acceptance, continue on page 7, step 04.

F07 Vehicle details validation

An incomplete vehicle request stays on the same screen. Complete the highlighted fields before continuing.

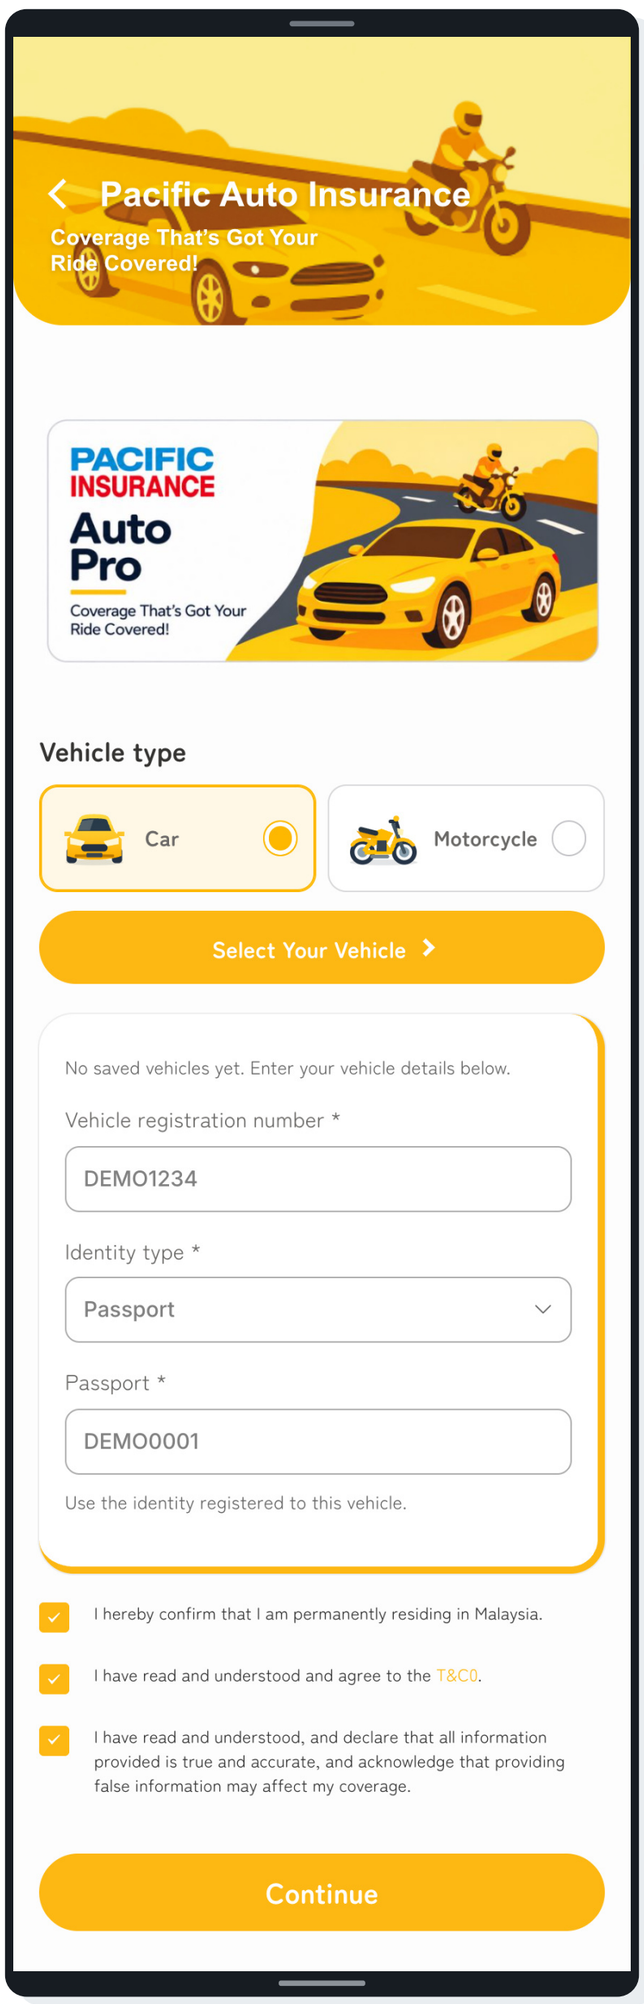

01 Required fields missing

Enter matching vehicle and identity

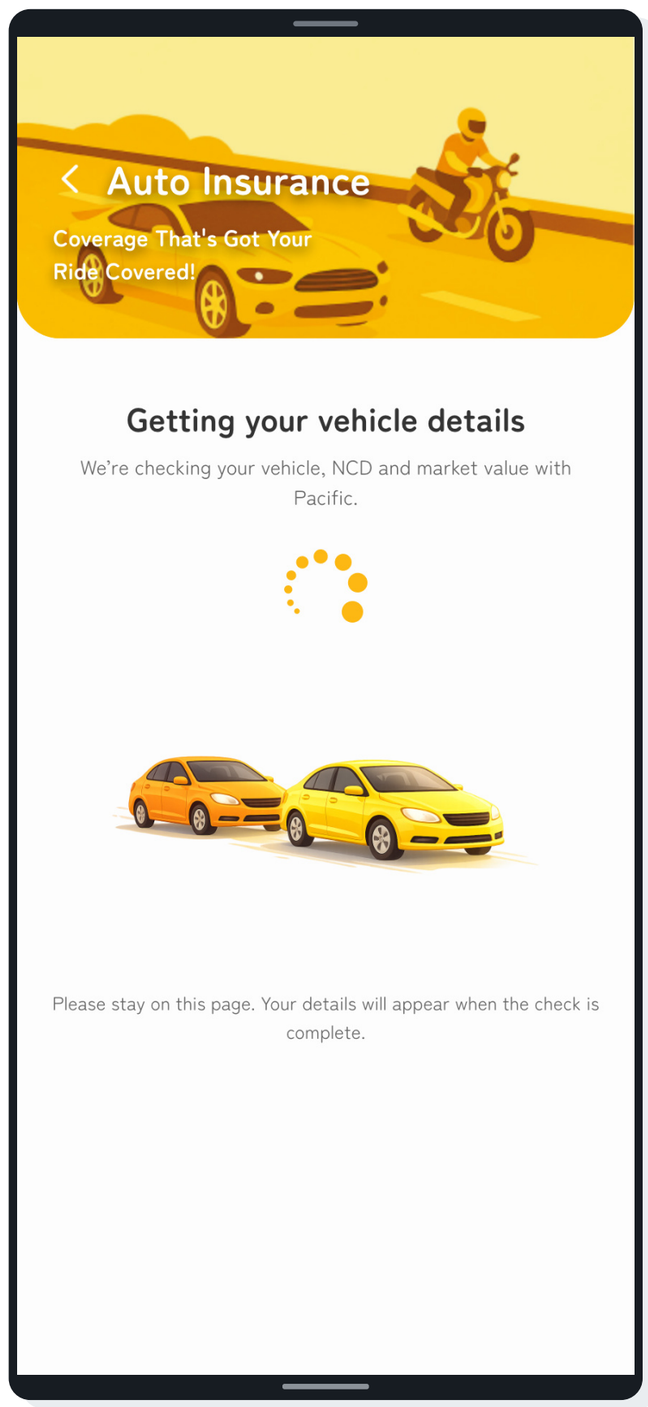

02 Vehicle details completed

Review declarations; tap Continue

03 Vehicle lookup

Continue to page 1, step 05

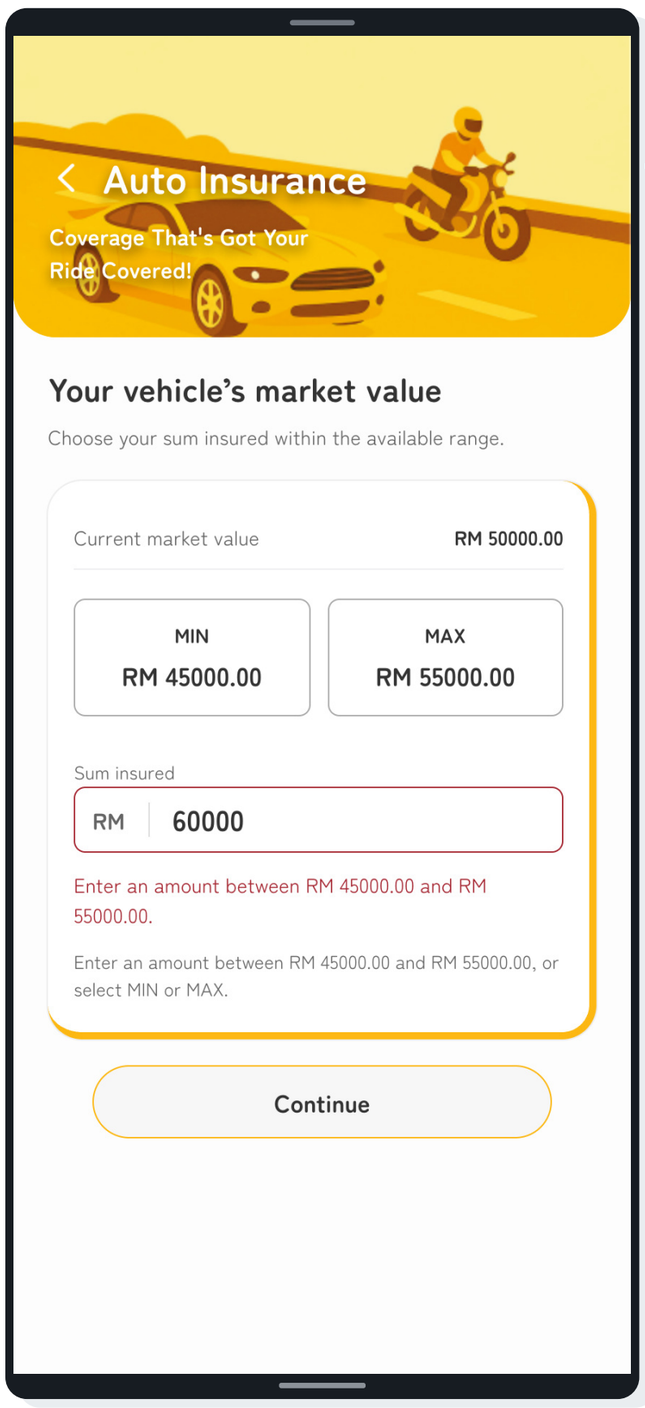

Check that the validation message is associated with the correct field and that entered information remains available for correction.

F08 Sum insured validation

An amount outside the available range cannot continue. Correct the amount, then proceed to personal details.

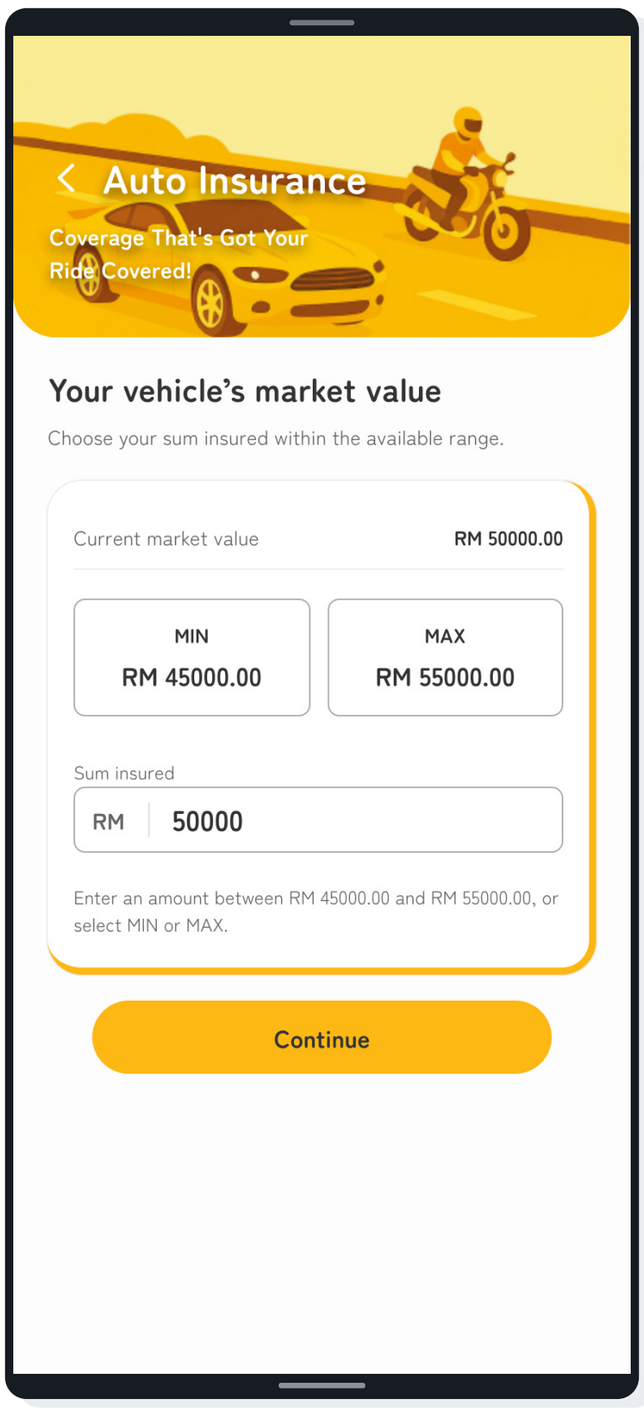

01 Amount outside range

Review the displayed MIN and MAX

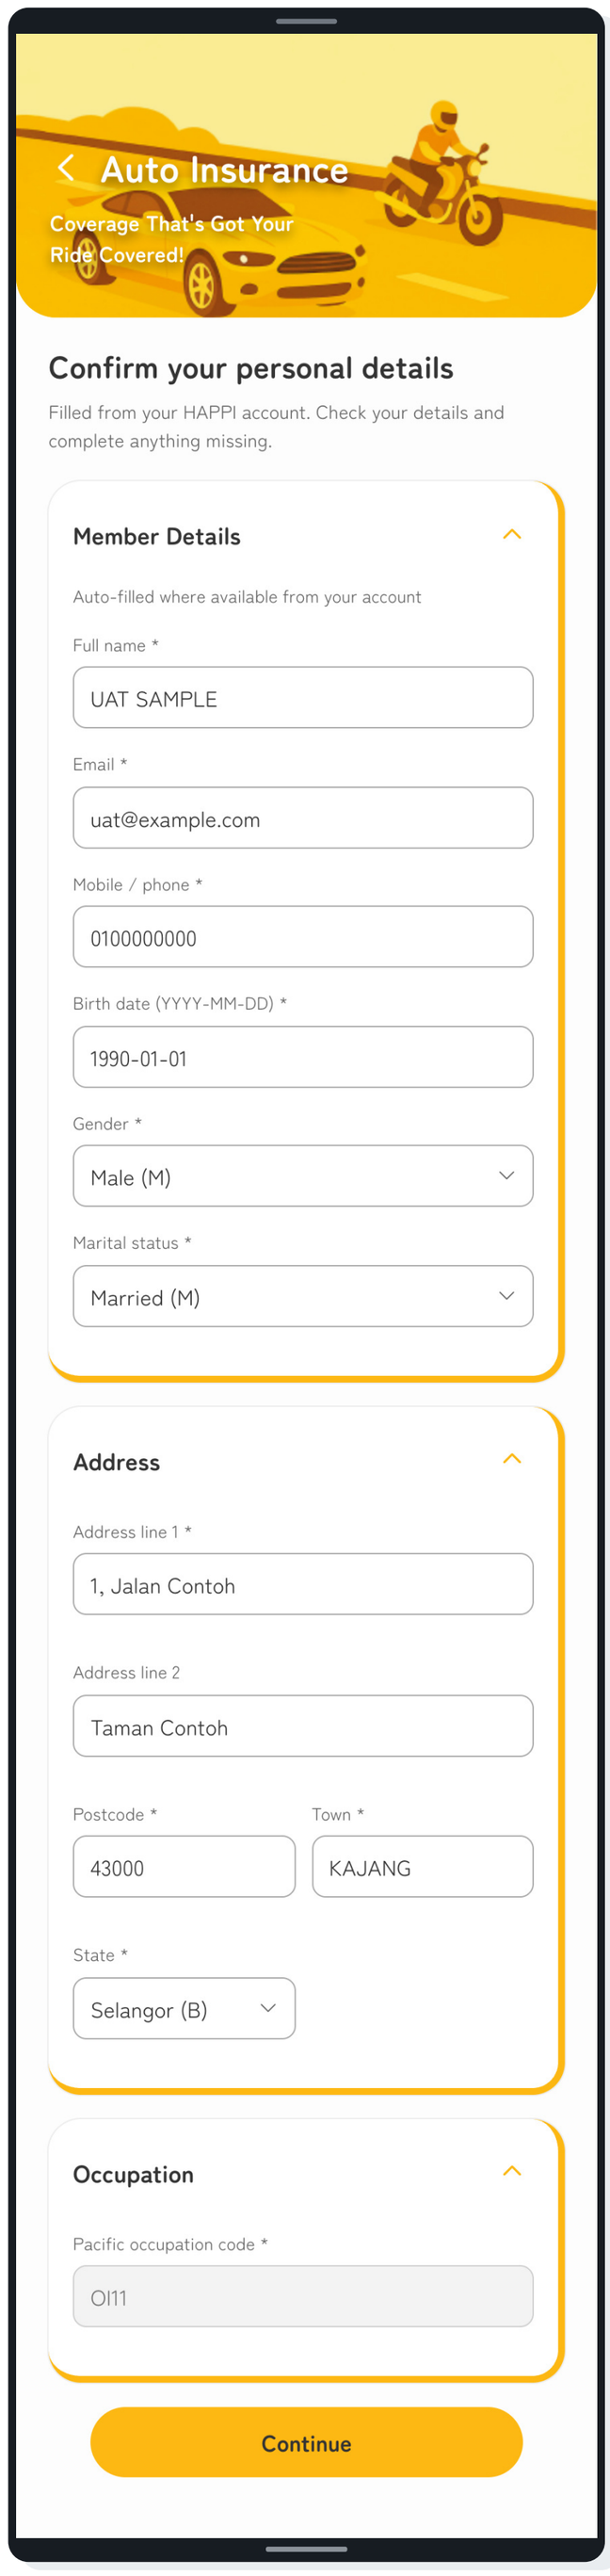

02 Amount within range

Enter a valid amount; tap Continue

03 Personal details

Continue to page 2, step 08

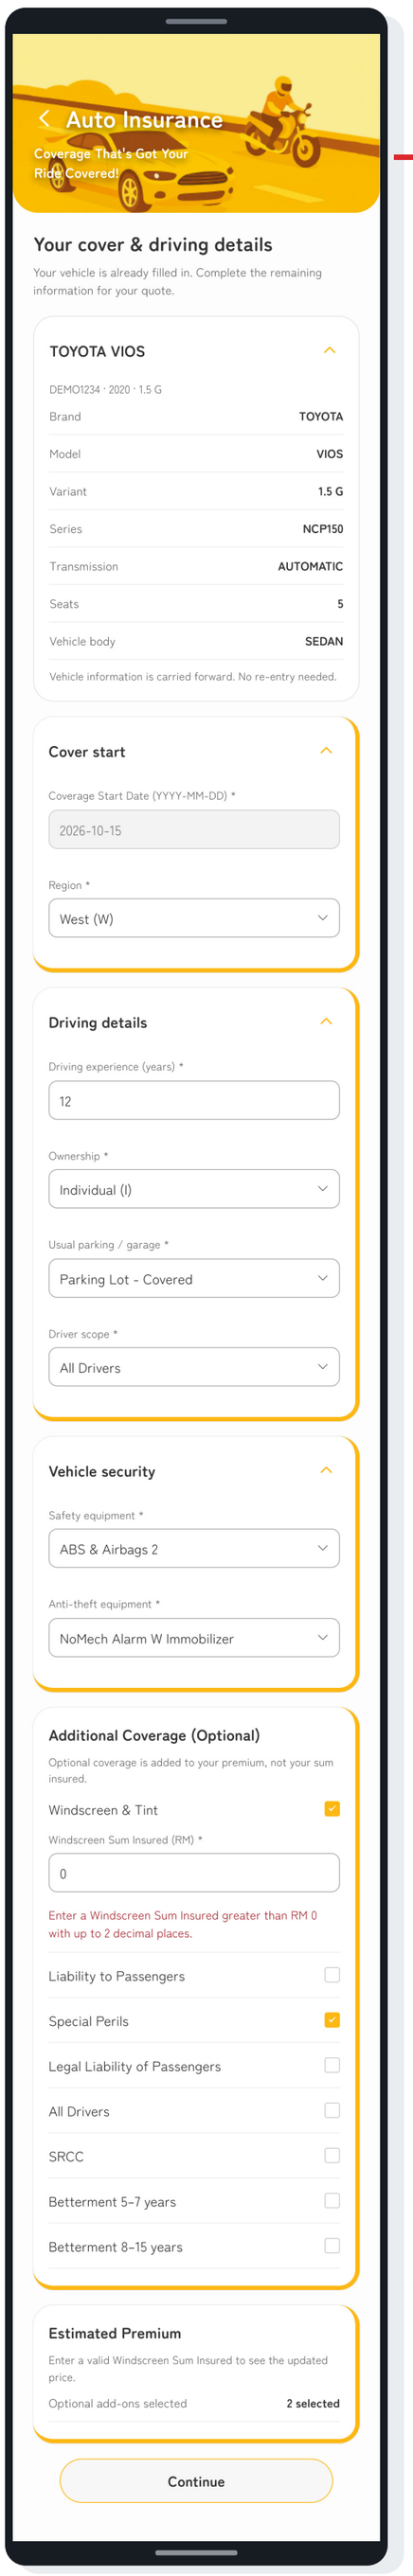

Example range: RM45,000 to RM55,000. The screen must show the applicable returned range and clear inline validation for an invalid amount.

F09 Windscreen amount validation

Selecting Windscreen & Tint requires a valid cover amount. The complete form is shown on both sides of this correction.

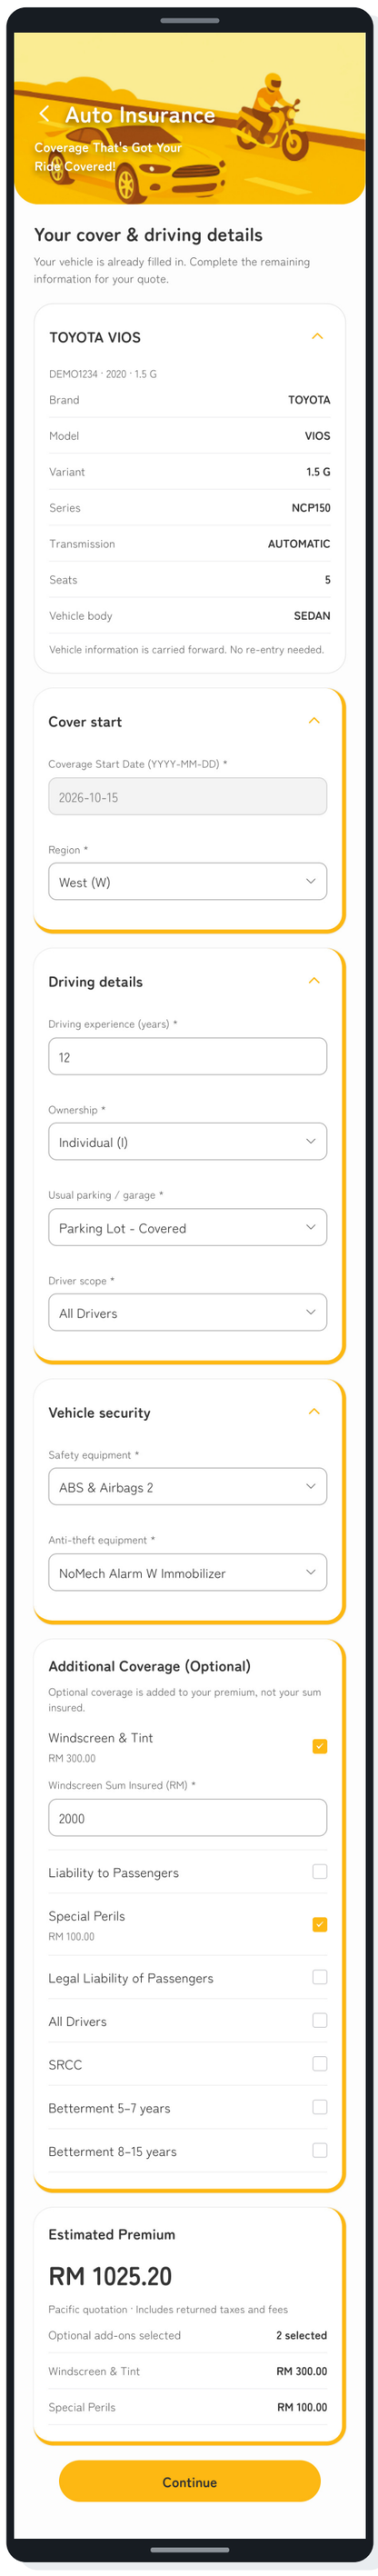

01 Invalid windscreen amount

Correct the highlighted amount

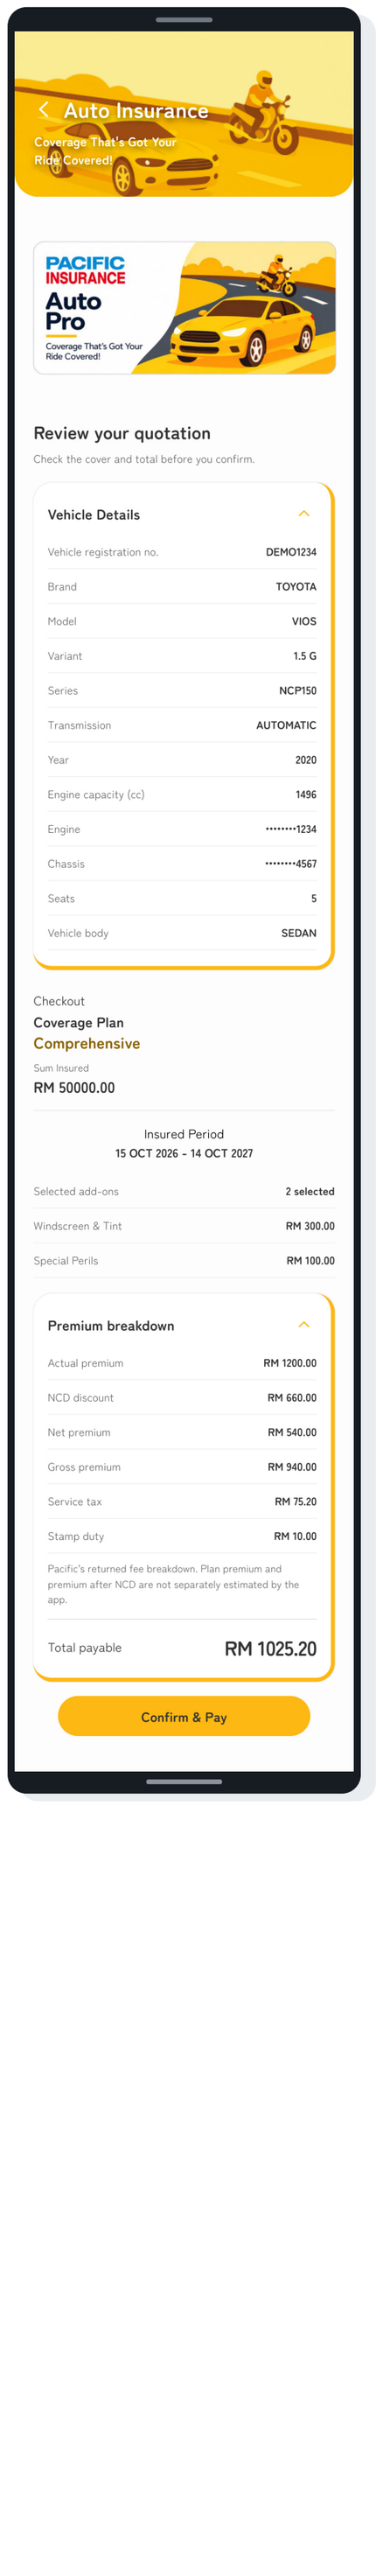

02 Valid windscreen amount

Wait for price update; tap Continue

03 Review updated quotation

Confirm selection and returned fees

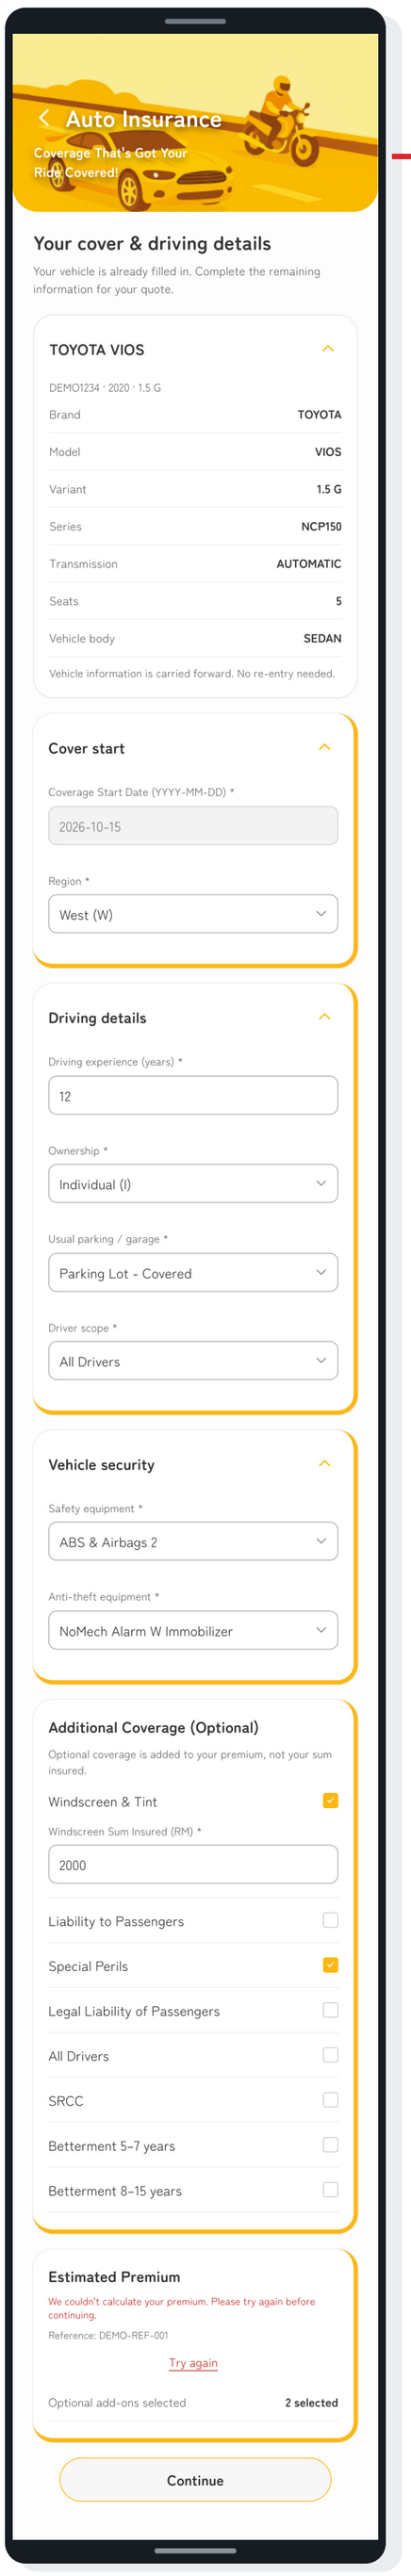

The invalid example uses RM0. The valid example uses RM2,000. Confirm that the error clears and Continue is enabled only after a current quotation is available.

F10 Quotation retry after timeout

A quotation error is shown beside the premium. Retry the request, then review the returned quotation before confirming.

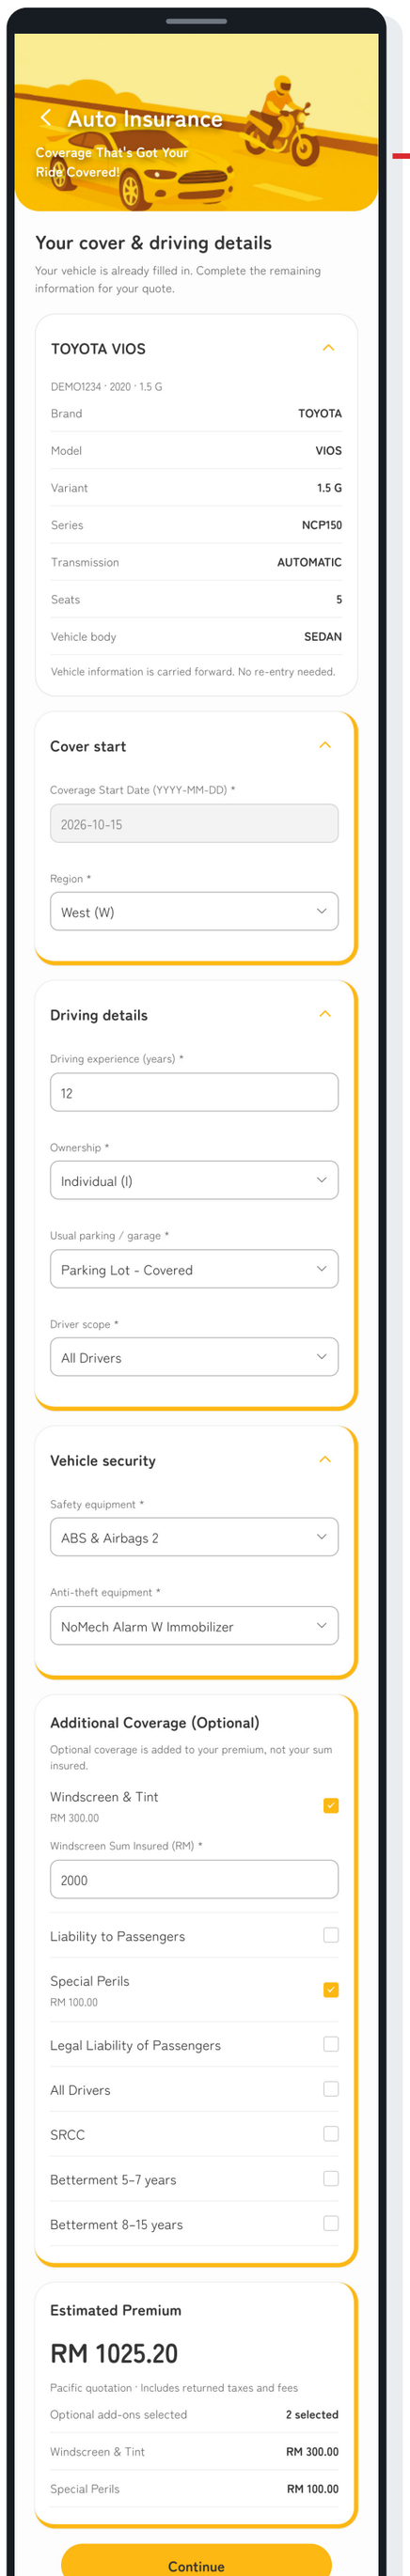

01 Premium request failed

Read the message; tap Try again

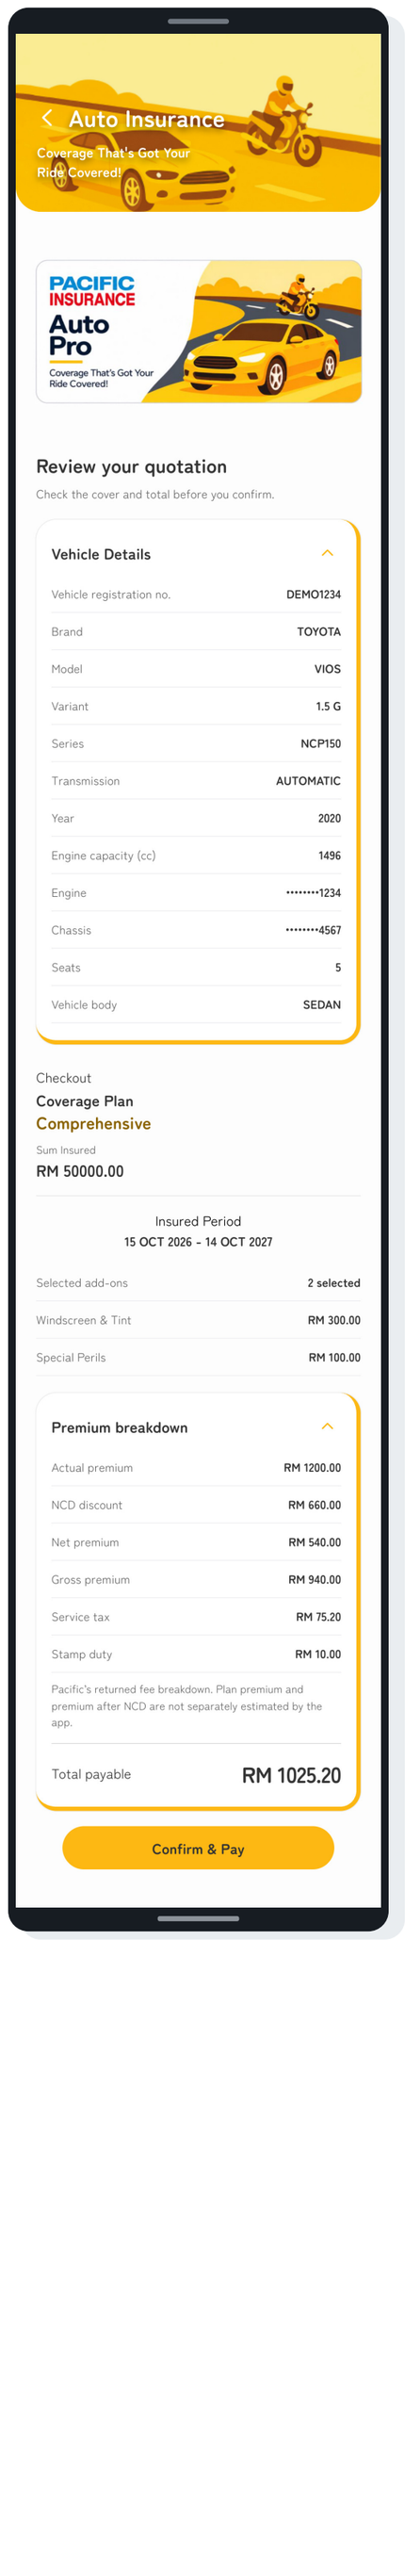

02 Price returned successfully

Review the price; tap Continue

03 Full quotation review

Confirm & Pay only after review

The reference and prices are illustrative. This page documents the error and recovery UI; it does not claim a successful live Pacific retry.
